The Hidden History of American Oligarchy Thom Hartmann, 2021-02-01 The New York Times bestselling author looks at the real history of the corrupting influence of oligarchy in America and how we can fight back Billionaire oligarchs want to own our republic and they're nearly there thanks to legislation and Supreme Court decisions that they have essentially bought They put Trump and his political allies into office and support a vast network of think tanks publications and social media that every day push our nation closer and closer to police state tyranny The United States was born in a struggle against the oligarchs of the British aristocracy and ever since then the history of America has been one of dynamic tension between democracy and oligarchy And much like the shock of the 1929 crash woke America up to glaring inequality and the ongoing theft of democracy by that generation's oligarchs the coronavirus pandemic of 2020 has laid bare how extensively oligarchs have looted our nation's economic system gutted governmental institutions and stolen the wealth of the former middle class Thom Hartmann the most popular progressive radio host in America and a bestselling author traces the history of this struggle against oligarchy from America's founding to the United States war with the feudal Confederacy to President Franklin Roosevelt's struggle against economic royalists who wanted to block the New Deal In each of those cases the oligarchs lost the battle But with increasing right wing control of the media unlimited campaign contributions and a conservative takeover of the judicial system we're at a crisis point Now is the time for action before we flip into tyranny We

ve beaten the oligarchs before and we can do it again Hartmann lays out practical measures we can take to break up media monopolies limit the influence of money in politics reclaim the wealth stolen over decades by the oligarchy and build a movement that will return control of America to We the People Praise for The Hidden History of American Oligarchy For every American interested in protecting our democracy everyone puzzled about how America came to the brink of authoritarian rule and for all who enjoy a being educated and entertained by enthralling eye opening riveting journey in U S history The Hidden History of Oligarchy is a must read Don Siegelman former Governor of Alabama author of Stealing Our Democracy Thom Hartmann is America s history teacher a national treasure laying it out scary and clear tyranny can happen here Oligarchy s choking democracy Mimi Kennedy actress board member Progressive Democrats of America The Hidden History of Monopolies Thom Hartmann, 2020-08-25 This is the most important dynamic book on the cancers of monopoly by giant corporations written in our generation Ralph Nader from the foreword American monopolies dominate control and consume most of the energy of our entire economic system they function the same as cancer does in a body and like cancer they weaken our systems while threatening to crash the entire body economic American monopolies have also seized massive political power and use it to maintain their obscene profits and CEO salaries while crushing small competitors But Thom Hartmann America s 1 progressive radio host shows we ve broken the control of behemoths like these before and we can do it again Hartmann takes us from the birth of America as a revolt against monopoly remember the Boston Tea Party to the largely successful efforts of both Presidents Theodore and Franklin Roosevelt and other like minded leaders to restrain corporations monopolistic urges to the massive changes in the rules of business starting during the Reagan Revolution that have brought us to the cancer stage of capitalism He shows the damage monopolies have done to so many industries agriculture healthcare the media and more Individuals have taken a hit as well the average American family pays a 5 000 a year monopoly tax in the form of higher prices for everything from pharmaceuticals to airfare to household goods and food But Hartmann also describes commonsense historically rooted measures we can take such as revitalizing antitrust regulation taxing great wealth and getting money out of politics to pry control of our country from the tentacles of the monopolists

the economy This resulted in just ten deaths while more than 500 000 people have died in the United States Hartmann offers a deep dive into the shameful history of American healthcare showing how greed racism and oligarchic corruption led to the current sickness for profit system Modern attempts to create versions of government healthcare have been hobbled at every turn including Obamacare There is a simple solution Medicare for all Hartmann outlines the extraordinary benefits this system would provide the American people and economy and the steps we need to take to make it a reality It s time for America to join every industrialized country in the world and make health a right not a privilege

oligarchy Or we can choose to return to Keynesian economics and Alexander Hamilton's American Plan by raising taxes on the rich reversing free trade and building a society that works for all The destabilization neoliberalism's policies have wrought have left our generation with the task to rebuild and Hartmann's book shows the way Leila Conners founder and Director Tree Media and Need to Know N2K Thom Hartmann makes it crystal clear how neoliberal free market economics benefits monopolistic big business and the ultrarich while impoverishing our country and everyone else Earl Katz progressive activist and Emmy nominated documentary film producer This compact handbook nimbly recapitulates the political effects of neoliberalism as it percolated through world history George DiCaprio
