Brown, 2020-09-03 Contemporary scholars of Chinese philosophy often presuppose that early China possessed a naturalistic worldview devoid of any non natural concepts such as transcendence Challenging this presupposition head on Joshua R Brown and Alexis McLeod argue that non naturalism and transcendence have a robust and significant place in early Chinese thought This book reveals that non naturalist positions can be found in early Chinese texts in topics including conceptions of the divine cosmogony and

apophatic philosophy Moreover by closely examining a range of early Chinese texts and providing comparative readings of a number of Western texts and thinkers the book offers a way of reading early Chinese Philosophy as consistent with the religious philosophy of the East and West including the Abrahamic and the Brahmanistic religions Co written by a philosopher and theologian this book draws out unique insights into early Chinese thought highlighting in particular new ways to consider a range of Chinese concepts including tian dao li and you wu

Nothing Matters: A Theory of Everything SM Thamby, 2025-10-26 This thesis presents Nothing Matters A Theory of Everything NMTOE a unified ontological framework bridging the domains of metaphysics physics and emergent complexity Starting from the Plane of Nothing PoN and the Non Spatial Potential NSP the work develops a rigorous pathway from primordial energy PE and Life Energy LE to the emergent structures of the Emerged Universe EU and intelligent systems Central to this framework are novel constructs such as Popies Popation and the Intensified Density Critical Emergent Ecosystem IDCEE which formalize the mechanisms of emergence coherence and self organization across scales The thesis introduces the Principle of Dimensional Differentiation at Thresholds PDDT and the Axiom of Differentiated Reality ADR as foundational principles demonstrating that differentiation is both necessary and sufficient for the existence of Reality By integrating cosmic intelligence CI human intelligence HI and supra intelligence SI within a unified ecosystemic context NMTOE establishes a scalable model for the evolution of complexity from the primordial substrate to conscious life The work reconciles philosophical insight with empirical physics exploring implications for cosmology quantum mechanics emergent phenomena and the origin of life while providing predictive and testable avenues through the Actuality Gateway AG and Intrinsic Molding Factor IMF frameworks Ultimately NMTOE advances a coherent theory that situates the universe life and intelligence within a single ontological continuum

offering both explanatory depth and conceptual clarity Against the Spiritual Turn Sean Creaven,2014-04-08 The argument presented in this book is that the recent spiritual trajectory of Roy Bhaskar's work upon which he first embarked with the publication of his *From East to West* undermines the fundamental achievements of his earlier work The problem with Bhaskar's new philosophical system Transcendental Dialectical Critical Realism or simply Meta Reality from the critical realist Marxist perspective endorsed here is that it marks both a departure from and a negation of the earlier concerns of Bhaskar to develop a realist philosophy of science and under labour for an emancipatory materialist socio historical science The end result is a meta philosophy which is irrealist speculative under theorized internally self contradictory and which cannot provide philosophical guidance to liberatory social practices In opposition to theist ontological logics more generally including the rather more rational theism presented by Margaret Archer Andrew Collier and Doug Porpora the argument of this book is that the earth bound materialist dialectics of the classical Marxist tradition and the naturalistic humanism these dialectics under labour on the terrain of socio historical being offer a much more promising way forward for critical realist theory and for liberatory politics and ethics Phänomenologische Forschungen 2023-1 Inga Römer,Thiemo Breyer,Michela Summa,2023-09-27 Die von Thiemo Breyer Inga Römer und Michela Summa herausgegebenen Phänomenologischen Forschungen sind ein international offenes Forum für die Publikation aller im weitesten Sinne phänomenologisch orientierten Arbeiten Aufgenommen werden Beiträge in deutscher englischer und französischer Sprache die Begutachtung erfolgt nach dem Verfahren des Peer Review Epistemics of Divine Reality Domenic Marbaniang,2017-08-18 What Knowledge Claims of God Involve This book investigates the various traditions like monism polytheism pantheism panentheism and approaches such as foundationalism fideism pragmatism and rational fideism This book was originally the PhD thesis of the writer submitted to ACTS Academy in 2007 **Energy Justice Across Borders** Gunter Bombaerts,Kirsten Jenkins,Yekeen A. Sanusi,Wang Guoyu,2019-10-18 This book is open access under a CC BY 4.0 license We must find new and innovative ways of conceptualizing transboundary energy issues of embedding concerns of ethics or justice into energy policy and of operationalizing response to them This book stems from the emergent gap the need for comparative approaches to energy justice and for those that consider ethical traditions that go beyond the classical Western approach This edited volume unites the fields of energy justice and comparative philosophy to provide an overarching global perspective and approach to applying energy ethics We contribute to this purpose in four sections setting the scene practice applying theory to practice and theoretical approaches Through the chapters featured in the volume we position the book as one that contributes to energy justice scholarship across borders of nations borders of ways of thinking and borders of disciplines The outcome will be of interest to undergraduate and graduate students studying energy justice ethics and environment as well as energy scholars policy makers and energy analysts **A Christian Perspective of Postmodern Existentialism** John D. Carter,2021-06-08 The Western Humanism originating in classical Greek philosophy where the capacity of human reason

became the dominant means for perceiving a worldview based in reality reigned in Western philosophy until the onset of Postmodern Existentialism in the mid twentieth century Plato's Theory of Forms prepared the Western gentile mind to accept the rationality of a transcendent ultimate reality and in so doing steered the gentile mind from its bent to pantheistic deities The apostle Paul boldly proclaimed to the Athenians that their unknown god was indeed the transcendent God of Abraham Isaac and Jacob Christianity prevailed in Western philosophy until the Enlightenment which was the result of the unprecedented success of the scientific method began to turn the Western mind to the existentialistic idea of the relativity of moral truth

Immanent Transcendence Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism
