BEST SPEAKER Sardar Mostofa, 2017-03-18. A good book and a good teacher can make a complicated subject easy and make the learning process highly effective. There are NO SECRETS to learn but effective ways to learn and teach. This book has been written with that objective. I have read many books in my journey to learn public speaking. Most books describe the techniques or the process from a third person or theoretical point of view. I was looking for a book with step by step growth from the doer or the first person perspective. This book bridges that gap. This book incorporates years of self awareness based learning into the teaching style of this powerful guidebook. It teaches a step by step natural learning process and how to put that learning to practice immediately. The materials provided in this book have been assembled and proven over my eight years of continuous research and testing. Every tool and technique provided in this book has been confirmed. Everything you'll be learning from this book is what I've researched, understood and repeatedly tested with great success. If you have read this book, you may want to share your learning experience with others by providing a review or rating. If you are buying it in bulk quantities, please let others know your experience with this book by giving a review or rating. If you like this book, you may also benefit from my Creative Thinking book below: The Creative Thinker: How to Become an Effective Problem Solver.

Meeting Game Mohan Karambelkar, 2013-12. Meetings take a significant part of communication in business. It can make or break the business. Yet executives and professionals assume that they have the skills or they can learn through experience. However, many of them experience aimless, time consuming meetings draining the productivity. This book, with extensive research, provides the solution. This book considers meeting as a process and recommends achievement of effective, efficient and energetic meetings through system, strategy and synergy. It blends conventional productivity tools with Neuro Linguistic Programming (NLP). NLP teaches how to use the language of the mind to consistently achieve specific and desired results. It means a study of excellence. NLP gives tools for communication rapport.
