Dracula's Daughters Douglas Brode, Leah Deyneka, 2013-12-24 Almost as long as cinema has existed vampires have appeared on screen Symbolizing an unholy union between sex and death the vampire male or female has represented the libido a repressed force that consumed its victims Early iconic representations of male vampires were seen in Nosferatu 1922 and Dracula 1931 but not until Dracula's Daughter in 1936 did a female sex vampire assume the lead Other female vampires followed perhaps most provocatively in the Hammer films of the 1950s 60s and 70s Later incarnations in such films as Near Dark 1987 and From Dusk till Dawn 1996 offered modern takes on this now iconic figure In Dracula's Daughters The Female Vampire on Film Douglas Brode and Leah Deyneka have assembled a varied collection of essays that explore this cinematic type that simultaneously frightens and seduces viewers

These essays address a number of issues raised by the female vampire film such as violence perpetrated on and by women reactions to the genre from feminists antifeminists and postfeminists the implications of female vampire films for audiences both gay and straight and how films reflected the period during which they were created Other topics include female vampire films in relationship to vampire fiction particularly by women such as Anne Rice the relationship of the vampire myth to sexually transmitted diseases like AIDS issues of race and misogyny and the unique phenomenon of teen vampires in young adult books and films such as *Twilight* Featuring more than thirty photos spanning several decades this collection offers a compelling assessment of an archetypal figure an enduring representation of dark desires that continues to captivate audiences This book will appeal not only to scholars and students but also to any lover of transgressive cinema Mediating Sexual Citizenship Anita Brady,Kellie Burns,Cristyn Davies,2017-07-06 Mediating Sexual Citizenship considers how the neoliberal imperatives of adaptation improvement and transformation that inform the shifting artistic and industrial landscape of television are increasingly indexed to performed disruptions in the norms of sexuality and gender Drawing on examples from a range of television genres quality drama reality television talk shows sitcoms and outlets network cable subscription video on demand the analysis in this book demonstrates how as one of the most dominant cultural technologies television plays a critical role in the production maintenance and potential reconfiguring of the social organisation of embodiment be it within gender identities kinship structures or the categorisation of sexual desire It suggests that in order to understand television s role in producing gendered and sexual citizenship we must pay critical attention to the significant shifts in how television is produced broadcast and consumed Undead in the West Cynthia J. Cowans,2018-12-07 Relations between Western nations and their colonial subjects changed dramatically in the second half of the twentieth century As nearly all of the West s colonies gained their independence by 1975 attitudes toward colonialism in the West also changed and terms such as empire and colonialism once used with pride became strongly negative While colonialism has become discredited precisely when or how that happened remains unclear This book explores changing Western attitudes toward colonialism and decolonization by analyzing American British and French popular cinema and its reception from 1960 to 1973 **The Sex Is Out of This World** Sherry Ginn,Michael G. Cornelius,Donald E.

Palumbo,2012-11-08 Science fiction can be translated into real unreality More than a genre like fantasy which creates entirely new realms of possibility science fiction constructs its possibilities from what is real from what is indeed possible or conceivably so This collection then looks to understand and explore the unreal reality to note ways in which our culture s continually changing and evolving mores of sex and sexuality are reflected in dissected by and deconstructed through the genre of science fiction This book is a collection of new essays with the general objective of filling a gap in the literature about sex and science fiction although some work has gone before none of it is recent The essays herein explore the myriad ways in which authors regardless of format print film television etc envision very different beings expressing this most fundamental of human behaviors Expanding the Black Film Canon Lisa Doris Alexander,2019-08-30 If the sheer diversity of recent hits from Twelve Years a Slave and Moonlight to Get Out Black Panther and BlackkKlansman tells us anything it might be that there s no such thing as black film per se This book is especially timely then in expanding our idea of what black films are and going back to the 1960s showing us new and interesting ways to understand them When critics and scholars write about films from the Blaxploitation movement such as Cotton Comes to Harlem Shaft Superfly and Cleopatra Jones they emphasize their importance as films made for black audiences Consequently Lisa Doris Alexander points out a film like the highly popular Oscar nominated Blazing Saddles costarring and co written by Richard Pryor is generally left out of the discussion because it doesn t fit the profile of what a black film of the period should be This is the kind of categorical thinking that Alexander seeks to broaden looking at films from the 60s to the present day in the context of their time Applying insights from black feminist thought and critical race theory to one film per decade she analyzes what each can tell us about the status of black people and race relations in the United States at the time of its release By teasing out the importance of certain films excluded from the black film canon Alexander hopes to expand that canon to include films typically relegated to the category of popular entertainment and to show how these offer more nuanced representations of black characters even as they confront negate or parody the controlling images that have defined black filmic characters for
