Treating Family Of Origin Problems A Cognitive Approach:

Treating Family of Origin Problems Richard C. Bedrosian, George D. Bozicas, 1994-01-07 This groundbreaking volume shows how the clarity and discipline of cognitive therapy can be applied to the treatment of family of origin issues such as alcoholism and incest without compromising depth and clinical sophistication Treating Family Of Origin Problems begins with a discussion of the characteristics of dysfunctional families and an overview of the cognitive model Subsequent chapters explore coping strategies goals of recovery and treatment diagnostic considerations and assessment of family of origin issues Ways in which the therapist's own family of origin issues and the therapist's posture can influence the treatment process are addressed in a discussion of various metacommunicative elements that can affect the client's ability to use treatment constructively Throughout illustrative clinical material shows how clinicians can utilize embedded messages and other techniques to circumvent resistance confront various types of acting out behavior while remaining in a supportive collaborative posture and provide a consistent focus in treatment highlighting the underlying mechanisms that cause distress without becoming mired in unproductive attention to the presenting symptoms The volume concludes with discussions of building coping strategies utilizing relationship material and variations in the recovery process *Competent Christian*

Breakup Thomas B. Holman, 2005-12-16 This book should be of interest to scholars researchers students and practitioners alike Scholars researchers and students of personal relationship development will recognize in this book the first serious attempt in over 40 years to do a large scale longitudinal study of premarital factors that predict premarital breakup and marital quality they should also appreciate our attempt to develop a theoretical rationale for predicted paths and to test those paths with the best available statistical tools Practitioners while generally not as interested in the intricacies of the statistical results will find much that is useful to them as they help individuals and couples make decisions about their intimate relationships their readiness for marriage and how to increase the probability for marital success Teachers family life

educators premarital counselors and clergy will find helpful our principles for practice particularly as described in Chapter 9 as they teach and counsel couples in any premarital situation My interest in the development of relationships from premarital to marital probably began when I got married in 1972 and started to notice all of the characteristics my wife and I brought from our respective families and how our new beginning as a married couple was in many ways the continuation of our premarital relationship only more refined and more intense My professional interest began when I did my doctoral dissertation in 1981 on premarital predictors of early marital satisfaction the results of that study are reported in Chapter 8
