**Quicklet on Mitch Albom's Tuesdays with Morrie** Joseph Pritchard, 2011-12-14 ABOUT THE BOOK Throughout our lives we have all encountered at one point or another people who have taught us some new insight about life the universe and our place in it A beloved grandparent passing on the wisdom they have collected throughout the years or a teacher whose guidance was instrumental in forming us into the person we are today For Mitch Albom the person who made that difference in his life was Morrie Schwartz Tuesdays with Morrie chronicles a professor's final lecture to his former student with whom he reconnects in his final days The book has sold over 14 million copies to date and has more than 50 editions the world over At its core the book really tells two stories On one hand it narrates Morrie's final lessons for Mitch Albom But it also talks about Morrie's rich and colorful life Both stories are framed in the context of Tuesday lessons which is where the book gets its title MEET THE AUTHOR Joseph Pritchard is passionate reader and writer He has a bachelor's degree in Biology and also completed a degree in medicine He has written for other prominent online publications and enjoys writing on a variety of topics EXCERPT FROM THE BOOK Because the book's focus is on Mitch and Morrie much of the narrative is told via flashbacks that highlight moments in the lives of both men The story begins at the end of Mitch's initial relationship with Morrie his college graduation During this time Mitch gives his professor a tan leather briefcase with Morrie's initials monogrammed on it He promises to stay in touch But the promise is forgotten and many years would pass before both friends are reunited Since graduating Mitch went on to become a newspaper journalist and led a life in the fastlane constantly working and traveling Prior to his success as a journalist Mitch was forced to abandon a failing musical career Mitch becomes so fixated with work that it crowds out other aspects of his life **The Mentor's Guide** Lois J.

Zachary, 2005-01-28 Thoughtful and rich with advice The Mentor's Guide explores the critical process of mentoring and presents practical tools for facilitating the experience from beginning to end Now managers teachers and leaders from any career professional or educational setting can successfully navigate the learning journey by using the hands on worksheets and exercises in this unique resource Readers will learn how to Assess their readiness to become a mentor Establish the relationship Set appropriate goals Monitor progress and achievement Avoid common pitfalls Bring the relationship to a natural conclusion The greatest gift one can give other than love is to help another learn Every leader who cares about nurturing talent and facilitating excellence will find this book a joy to read and a jewel to share Chip R Bell author of *Managers as Mentors* *The Spirit of Mentoring* Robin Cox, 2005 **Developing Faculty Learning Communities at Two-Year Colleges** Susan Sipple, Robin Lightner, 2023-07-03 This book introduces community college faculty and faculty developers to the use of faculty learning communities FLCs as a means for faculty themselves to investigate and surmount student learning problems they encounter in their classrooms and as an effective and low cost strategy for faculty developers working with few resources to stimulate innovative teaching that leads to student persistence and improved learning

outcomes Two year college instructors face the unique challenge of teaching a mix of learners from the developmental to high achievers that requires using a variety of instructional strategies and techniques Even the most experienced teachers can find this diversity demanding Faculty developers at many two year colleges still rely solely on the one day workshop model that while useful rarely results in sustained student centered changes in pedagogy or the curriculum and may not be practicable for the growing cohort of part time faculty members By linking work in the classroom with scholarship and reflection FLCs provide participants with a sense of renewed engagement and stimulate collegial exploration of ways to achieve educational excellence FLCs are usually faculty instigated and cross disciplinary and comprise groups of six to fifteen faculty that work collaboratively through regular meetings over an extended period of time to promote research and an exchange of experiences foster community and develop the scholarship of teaching FLCs alleviate burnout and isolation promote the development testing and peer review of new classroom strategies or technologies and lead to the reenergizing and professionalization of teachers This book introduces the reader to FLCs and to the Scholarship of Teaching and Learning offering examples of application in two year colleges Individual chapters describe among others an FLC set up to support course redesign an Adjunct Connectivity FLC to integrate part time faculty within a department and collaborate on the curriculum a cross disciplinary FLC to promote student self regulated learning and improve academic performance and persistence a critical thinking FLC that sought to define critical thinking in separate disciplines examine interdisciplinary cross over of critical thinking and measure critical thinking more accurately an FLC that researched the transfer of learning and developed strategies to promote students application of their learning across courses and beyond the classroom Each chapter describes the formation of its FLC the processes it engaged in what worked and did not and the outcomes achieved Just as when college faculty fail to remain current in their fields the failure to engage in continuing development of teaching skills will equally lead teaching and learning to suffer When two year college administrators restrain scholarship and reflection as inappropriate for the real work of the institution they are in fact hindering the professionalization of their teaching force that is essential to institutional mission and student success When FLCs are supported by leaders and administrators and faculty learn that collaboration and peer review are valued and even expected as part of being a teaching professional they become intrinsically motivated and committed to collaboratively solving problems setting the institution on a path to becoming a learning organization that is proactive and adept at navigating change
