

Tummy Time

For all babies from birth

Why supervised tummy time is important for babies

red
nose
saving little lives

rednose.org.au

Tummy time is good for me because...

- ✓ My neck, shoulder, arm and back muscles will get stronger. I use these muscles to move around
- ✓ I can see the world from different angles, which helps my brain to develop
- ✓ It also prevents me from developing a flat spot on the head

As soon as I am born...

- ✓ Start supervised tummy time when I am awake, not too tired or hungry
- ✓ Offer supervised tummy time frequently during the day when I am awake
- ✓ Place me on my back for sleep (supine)

At the beginning I may be...

- Unsettled
- Just able to stay on my tummy for a minute or two during playtime

Remember

Parents and carers are often very tired and can fall asleep easily during the day. Make sure I am put in my own safe sleep space if either of us start getting sleepy

Easy start

Carry me over your...

Shoulder

Arm

Chest

Lap

Don't give
up trying!

I will get better if I
practice a few
times a day

Tummy play on the floor

- ✓ I like to play on a comfortable firm mattress or bunny rug
- ✓ A rolled towel or cloth nappy under my armpits and chest will give me more support (please remove towels before you place me to sleep on my back)
- ✓ I can lift up my head more easily if I'm propped on my elbows
- ❗ Never leave me alone or unsupervised on my tummy, as it is dangerous if I fall asleep or get my airways covered

Don't leave
me alone!

I love to watch your face, so
get down on my level, talk and
sing to me or get a toy and
play with me
