Through Musical Theatre John Charles Franceschina, 2015 *Music Theory through Musical Theatre* takes a new and powerful approach to music theory. Written specifically for students in music theatre programs, it offers music theory by way of musical theatre. Not a traditional music theory text, *Music Theory through Musical Theatre* tackles the theoretical foundations of musical theatre and musical theatre literature with an emphasis on what students will need to master in preparation for a professional career as a performer. Veteran music theatre musician John Franceschina brings his years of experience to bear in a book that offers musical theatre educators an important tool in equipping students with what is perhaps the most important element of being a performer: the ability to understand the language of music in the larger dramatic context to which it contributes. The book uses examples exclusively from music theater repertoire, drawing from well-known and more obscure shows and songs. Musical sight-reading is consistently at the forefront of the lessons, teaching students to internalize notated music quickly and accurately, a particularly necessary skill in a world where songs can be added between performances. Franceschina consistently links the concepts of music theory and vocal coaching, showing students how identifying the musical structure of and gestures within a piece leads to better use of their time with vocal coaches and ultimately enables better dramatic choices. Combining formal theory with practical exercises, *Music Theory through Musical Theatre* will be a lifelong resource for students in musical theatre courses dog-eared and shelved beside other professional resource volumes. *San Francisco Municipal Record*, 1915 **Municipal Record** San Francisco

(Calif.). Board of Supervisors, 1917 **Motordom**, 1915 **Masonic Standard**, 1918 Early Broadway Sheet Music Donald J. Stubblebine, 2015-06-08 This work is a companion to the author's *Broadway Sheet Music: A Comprehensive Listing of Published Music from Broadway and Other Stage Shows, 1918 through 1993*. McFarland, 1996 provides information about all sheet music published 1843-1918 from all Broadway productions plus music from local shows, minstrel shows, night club acts, vaudeville acts, touring companies, and shows on the road that never made it to Broadway and all the major musicals from Chicago. The Clinique, 1917 *The American Musical and the Formation of National Identity* Raymond

Knapp, 2018-06-05 The American musical has achieved and maintained relevance to more people in America than any other performance-based art. This thoughtful history of the genre, intended for readers of all stripes, offers probing discussions of how American musicals, especially through their musical numbers, advance themes related to American national identity. Written by a musicologist and supported by a wealth of illustrative audio examples on the book's website, the book examines key historical antecedents to the musical, including the Gilbert and Sullivan operetta, nineteenth and early twentieth century

American burlesque and vaudeville Tin Pan Alley and other song types It then proceeds thematically focusing primarily on fifteen mainstream shows from the twentieth century with discussions of such notable productions as Show Boat 1927 Porgy and Bess 1935 Oklahoma 1943 West Side Story 1957 Hair 1967 Pacific Overtures 1976 and Assassins 1991 The shows are grouped according to their treatment of themes that include defining America mythologies counter mythologies race and ethnicity dealing with World War II and exoticism Each chapter concludes with a brief consideration of available scholarship on related subjects an extensive appendix provides information on each show discussed including plot summaries and song lists and a listing of important films videos audio recordings published scores and libretti associated with each musical
