Thinking about Video Games David S. Heineman, 2015-08-03 The growth in popularity and complexity of video games has spurred new interest in how games are developed and in the research and technology behind them David Heineman brings together some of the most iconic influential and interesting voices from across the gaming industry and asks them to weigh in on the past present and future of video games Among them are legendary game designers Nolan Bushnell Pong and Eugene Jarvis Defender who talk about their history of innovations from the earliest days of the video game industry through to the present contemporary trailblazers Kellee Santiago Journey and Casey Hudson Mass Effect who discuss contemporary relationships between those who create games and those who play them and scholars Ian Bogost How to Do Things With Videogames and Edward Castronova Exodus to the Virtual World who discuss how to research and write about games in ways that engage a range of audiences These experts and others offer fascinating perspectives on video games game studies gaming culture and the game industry more broadly [The Routledge Companion to Video Game Studies](#) Mark J.P.

Wolf, Bernard Perron, 2014-01-03 The number of publications dealing with video game studies has exploded over the course of the last decade but the field has produced few comprehensive reference works The Routledge Companion to Video Game Studies compiled by well known video game scholars Mark J P Wolf and Bernard Perron aims to address the ongoing theoretical and methodological development of game studies providing students scholars and game designers with a definitive look at contemporary video game studies Features include comprehensive and interdisciplinary models and approaches for analyzing video games new perspectives on video games both as art form and cultural phenomenon explorations of the technical and creative dimensions of video games accounts of the political social and cultural dynamics of video games Each essay provides a lively and succinct summary of its target area quickly bringing the reader up to date on the pertinent issues surrounding each aspect of the field including references for further reading Together they provide an overview of the present state of game studies that will undoubtedly prove invaluable to student scholar and designer alike

Gender, Age, and Digital Games in the Domestic Context Alison Harvey, 2015-03-27 Western digital game play has shifted in important ways over the last decade with a plethora of personal devices affording a range of increasingly diverse play experiences Despite the celebration of a more inclusive environment of digital game play very little grounded research has been devoted to the examination of familial play and the domestication of digital games as opposed to evolving public and educational contexts This book is the first study to provide a situated investigation of the site of family play the shared spaces and private places of gameplay within the domestic sphere It carries out an empirically grounded and critical analysis of what marketing and sales discourses about shifts in the digital games audience actually look like in the space of the home as well as the social and cultural role these ludic technologies take in the everyday practices of the family in the domestic context It examines the material realities of video game technologies in the home including time management and spatial

organization as well as the discursive role these devices play in discussions of technological competence and its complex relationship to age generational differences and gender performance Harvey s interdisciplinary approach and innovative methodology will hold great critical appeal for those studying digital culture children s media and feminist studies of new media as well as critical theories of technology and leisure and sport theory *The Computer Supported Collaborative Learning (CSCL) Conference 2013, Volume 2* ISLS,2014-04-23 The Computer Supported Collaborative Learning CSCL Conference 2013 proceedings Volume 2 Seeking Identity Nancy Mae Antrim,2007 Seeking Identity Language in Society looks at how we define and create identity both as individuals and as a society through language Our language choices reflect not only how we view ourselves but how we are viewed by society An individual s identity is reflected in various language construed identities ethnicity gender and cross cultural counter cultural In turn these identities are projected by society on the individual ethnic group by the language choices society makes in describing and addressing these individuals In the first section Language and Identity an ethnolinguistic approach is used to address the areas of language identity loyalty gender and ethnic pride Section two Language and Advertising looks at how society in turn uses language to relate to different groups by appealing to ethnic pride language identity and the power prestige that using a particular language variety entails Section three Language and the Media explores how the media contributes to our construction of identity Section four Language and Discourse shows how written discourse can appropriate construct and parody identity
