Tribes of the Niger Delta Margery F. Perham,1976-08-01 **European Traditions in the Study of Religion in Africa** Ulrich Berner,Christoph Bochinger,2004 This volume comprises case studies of five centuries of European encounters with and imaginations of Africa encompassing her triple religious heritage African Traditional Religions Christianity and Islam The introductory chapters outline the challenges and present overviews some of them also analyze the early accounts of European travelers and missionaries The following contributions examine the lasting legacy of the European Enlightenment in employing an ambivalent language of human equality and universalism while in actual fact consigning Africa to an inferior position It has been difficult for western scholars to divorce themselves wholly from the perceptions thus established However there have been quite different approaches This is indicated in the papers discussing the role and impact of influential European academics scholars of religion theologians historians and social scientists during the colonial and postcolonial period Other contributions examine specific institutional centers of African religious studies in Europe The concluding chapters critically assess European approaches and their use for the study of religion in Africa from an African perspective **Spaces of Insurgency** Elias Edise Courson,2025-05-15 The dominant scholarly and policy discourse on the insurgencies and conflicts in Nigeria s oil rich Niger Delta has been significantly shaped by the resource curse narrative This influential framework deeply integrated into wider debates concerning neoliberal globalization security and development as evidenced by the World Bank s 2011 World Development Report on security conflict and development positions the Niger Delta as a key case study The region s unique context a global oil and gas industry operating within a pluri ethnic federal system and a complex social field characterized by a range of contentious struggles from chieftainship disputes to electoral and territorial conflicts seemingly reinforces this narrative However this book argues for a necessary shift in focus towards a historical and spatial analysis of crisis from the 19th century to the present Such an approach it contends is crucial for understanding the deep seated and unresolved animosities that underpin contemporary tensions in the region By critically interrogating resource curse narratives in the Niger Delta conflicts insurgencies that have emerged since the 1990s this book demonstrates the layered and historically contingent nature of these conflicts Employing an interdisciplinary and comparative methodology it reflects on the specific ways in which political violence and the security development nexus in Africa a subject of considerable academic attention since the 1980s are situated within broader global patterns of knowledge production The central contribution of this book lies in its analysis of how spatial dynamics particularly the interplay between west and east and inter regional politics are fundamental to a more nuanced understanding of crisis in the Niger Delta and beyond *United Kingdom Publications and Theses on Africa 1967-68* Miriam Alman,2013-07-04 First published in 1973
