Truth Within Inwardness Christianity Hinduism:

The Truth Within Gavin Flood,2013-10-25 The idea that there is a truth within the person linked to the discovery of a deeper more fundamental more authentic self has been a common theme in many religions throughout history and an idea that is still with us today This inwardness or interiority unique to me as an essential feature of who I am has been an aspect of culture and even a defining characteristic of human being an authentic private sphere to which we can retreat that is beyond the conflicts of the outer world This inner world becomes more real than the outer which is seen as but a pale reflection Remarkably the image of the truth within is found across cultures and this book presents an account of this idea in the pre modern history of Christianity Hinduism and Buddhism Furthermore in theistic religions Christianity and some forms of Hinduism the truth within is conflated with the idea of God within and in all cases this inner truth is thought to be not only the heart of the person but also the heart of the universe itself Gavin Flood examines the metaphor of inwardness and the idea of truth within along with the methods developed in religions to attain it such as prayer and meditation These views of inwardness that link the self to cosmology can be contrasted with a modern understanding of the person In examining the truth within in Christianity Hinduism and Buddhism Flood offers a hermeneutical phenomenology of inwardness and a defence of comparative religion

The Truth Within Gavin D. Flood,2013 The idea that there is a truth within the person discovered through introspection is found in most religions This book examines this metaphor in the history of Christianity Hinduism and Buddhism and the methods developed in those religions to realise it particularly prayer and meditation *The Future of Hindu-Christian Studies* Francis Clooney,2017-07-14 Based on the Westcott Teape Lectures given in India and at the University of Cambridge this book explores the possibilities and problems attendant upon the field of Hindu Christian Studies the reasons for occasional flourishing and decline in such studies and the fragile conditions under which the field can flourish in the 21st century The chapters examine key instances of Christian Hindu learning highlighting the Jesuit engagement with Hinduism the modern Hindu reception of Western thought and certain advances in the study of religion that enhance intellectual cooperation

scientists tell us especially evolutionary science and social neuroscience as well as through the history of civilizations Part one contemplates fundamental questions and assumptions what the current state of knowledge is concerning life itself what the philosophical issues are in that understanding and how we can explain religion as the driving force of civilizations in the context of human development within an evolutionary perspective It also addresses the question of the emergence of religion and presents a related study of sacrifice as fundamental to religions views about life and its transformation Part two offers a reading of religions in three civilizational blocks India China and Europe the Middle East particularly as they came to formation in the medieval period It traces the history of how these civilizations have thematised the idea of life itself Part three then takes up the idea of a life force in part three and traces the theme of the philosophy of life through to modern times On the one hand the book presents a narrative account of life itself through the history of civilizations and on the other presents an explanation of that narrative in terms of life

Thinking of Thinking Richard E. Duus, 2024-10-29 This book addresses what is interesting and exciting about thinking A democratic community requires one to vote Ideally voting is directed by thinking and reasoning in order to determine which politician s policies can improve one s life Alternatively voting can be determined by loyalty or directed by another in a position of authority Such a vote does not take into account how the policies of a politician will influence one s life and is determined by loyalty rather than practical person directed thinking These are exciting concerning aspects of personal and community directed thinking What can be considered exciting about good thinking is explored in depth How we think contributes to developing meaning in life and enhances one s relationships One s quality of thinking enriches relationship of one s inner world with the external world This enriched relationship propels spiritual development to a satisfying personal coherence and capacity for insight Dr. S.
