Voices From The Ghetto Dedicated To Maya Angelou:

Voices From The Ghetto (Dedicated To Maya Angelou) Gaiven Clairmont, 2023-10-27 An Amazon 1 Bestseller in African American Poetry From the author who brought you The 7 Lamps Of Inspiration comes another powerful poetic book meant to change the landscape of mankind's morality and humanity PRAISE FOR VOICES FROM THE GHETTO The poems I have read thus far are introspective and truly try to bring to light a want for more positivity among blacks actually among any human Ani Best Voices from the Ghetto paints a vivid picture of a change needed but most of all it gives you the courage to stand up and make a change Author Tamyara Brown Reading this book shows the rawness of the unsung in the ghetto When I read it I felt the pain I felt the heartache but I felt the hope Jaime Perry It takes serious power to write like this Ashley Elizabeth This book will go down in history I have so enjoyed the writing Lisa Holden Christiansen This book is dedicated to the memory of the great poet and civil rights activist Maya Angelou as well as Trayvon Martin Jordan Davis Oscar Grant III Mike Brown and other young black men who were killed because of racial stereotypes Voices From The Ghetto is a collection of powerful urban stories told using poetry This book is meant to do two things One to bring awareness to the lives of those who live in the ghetto and other urban and impoverished areas These people have stories that no one hears about When we hear about them in the news we don't see them as people thus this book is meant to bring back humanity to those who we have dehumanized The second thing this book is meant to achieve is to inspire those living in the ghetto to not just achieve their destiny but become a destination for others to follow It is meant to show people that they can conquer their environment and that no matter where you are born or what colour your skin is you can achieve greatness and even immortality This book was inspired by books like The Autobiography of Malcolm X Nelson Mandela's The Long Walk To Freedom Maya Angelou's I Know Why The Caged Bird Sings to name a few So if you want to read a book meant to not just inspire minorities but also to give voices to the people whose stories we don't know about Then this book is for you your children and your grand children My hope is that book can help save lives and stop the stereotypical killings like the Trayvon Martins Jordan Davis's Oscar Grants Mike Browns and the others who have been killed for no other reason than the colour of their skin and the prejudices that go with that skin Read this excerpt from one of the poems in this book and if you are moved emotionally then download your copy today and don't delay the chance to have this breath taking powerful book in your library We have lost too many princes and princesses It breaks my heart seeing this It breaks my heart seeing how low we have gone Is this what Rosa Parks sat for Is this what Malcolm X fought for Is this what MLK died for Is this what Maya Angelou wrote for Is this what Barack Obama ran for Make yourself more than a man Or a woman Make yourself an idea Don't just chase your destiny Become a destination For others to follow And if you can't change the narrative of the gate keepers Then aspire to be a gatekeeper And change the narrative for the generations to come Let us not have anymore Trayvon Martins Jordan Davis's Oscar Grants Isn't it ironic that the same media Who were outraged at Martin's killing May have been the very ones who

helped pull the trigger **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *The Concise Oxford Companion to African American Literature* William L.
