Twilight of the Godlings Francis Young, 2023-03-30 A bold and field defining exploration of the cultural and religious origins of Britain's small gods, fairies and other supernatural beings **Postcoloniality and Forced Migration** Martin Lemberg-Pedersen, Sharla M. Fett, Lucy Mayblin, Nina Sahraoui, Eva Magdalena Stambøl, 2022-08-23 As the pervasive legacy of colonialism continues to shape global politics this unprecedented book presents case studies of forced migration events from the 18th century to present day across 5 continents **Opera and Sovereignty** Martha Feldman, 2010-10-05 Performed throughout Europe during the 1700s Italian heroic opera or opera seria was the century's most significant musical art form profoundly engaging such figures as Handel, Haydn and Mozart. Opera and Sovereignty is the first book to address this genre as cultural history, arguing that eighteenth century opera seria must be understood in light of the period's social and political upheavals. Taking an anthropological approach to European music that's as bold as it is unusual, Martha Feldman traces Italian opera's shift from a mythical assertion of sovereignty with its festive forms and rituals to a dramatic vehicle that increasingly questioned absolute ideals. She situates these transformations against the backdrop of eighteenth century Italian culture to show how opera seria both reflected and affected the struggles of rulers to maintain sovereignty in the face of a growing public sphere. In so doing, Feldman explains why the form had such great international success and how audience experiences of the period differed from ours today. Ambitiously interdisciplinary, Opera and Sovereignty will appeal not only to scholars of music and anthropology but also to those interested in theater, dance and the history of the Enlightenment Protest Elections and Challenger Parties Susannah Verney, Anna Bosco, 2016-04-14 Both in Greece in 2012 and Italy in 2013 it took two elections to form a government. A repeat parliamentary contest was required in Greece and the unprecedented re-election of the outgoing President of the Republic in Italy before a cabinet could be formed. Against a background of economic crisis and national austerity, both countries experienced protest elections in which the overriding concern for an unusually large proportion of voters was not to choose a government but to express dissent. The outcome included record-breaking electoral volatility, the decline of bipolarism, the startling rise of challenger parties and the transformation of national patterns of government formation including experiments with grand coalitions and technocrat-led cabinets. These developments sent shock waves through Europe and beyond, suggesting Southern Europe might be drifting towards ungovernability. The volume offers analyses of the key electoral contests at the parliamentary, presidential and local government levels, complemented by special studies of two key challenger parties: Beppe Grillo's Five Star Movement in Italy and Golden Dawn in Greece. An introductory comparative overview traces the process of convergence between the political systems of Italy and Greece, which appears to have been triggered by the economic crisis. This book was published as a special issue of South European Society and Politics **Cesare Zavattini's Neo-realism and the Afterlife of an Idea** David Brancaleone, 2021-07-15 How many Zavattinis are there? Humanism and Religion in Early Modern Spain Terence O'Reilly, 2021-09-30 Humanism and Religion in Early Modern Spain brings together twenty five essays by renowned historian Terence O'Reilly The essays examine the interplay of religion and humanism in a series of writings composed in sixteenth century Spain It begins by presenting essential background the coming together during the reign of the Emperor Charles V of Erasmian humanism and various movements of religious reform some of them heterodox It then moves on to the reign of Philip II focusing on the mystical poetry and prose of St John of the Cross It explores the influence on his writings of his humanist learning classical biblical and patristic The third part of the book concerns a verse epistle by John's contemporary Francisco de Aldana One chapter presents the text with a parallel version in English whilst two others trace its debt to Florentine Neoplatonism particularly the thought of Marsilio Ficino The final part is devoted to

the humanism of the poet and Scripture scholar Luis de León and specifically to the confluence in his work of biblical and classical motifs This book is essential reading for scholars and students of early modern Spanish history as well those interested in literary studies and the history of religion CS 1102 *The Route of the Franks* Cristina Corsi, 2022-09-29 A scientific study of the journey that Archbishop Sigeric of Canterbury undertook from the British Isles to Rome focussing on the segment included in the territory of modern France It not only reconstructs the route but also offers an archaeological snapshot of the urban developments along the route at the twilight of the first millennium AD **Atlante del romance** Lidia Ottelli, Carmen Bruni, 2025-09-16 Il romance senza ombra di dubbio il fenomeno del momento da letteratura di genere adesso amato da lettrici e lettori di tutto il mondo e di tutte le età che si scambiano consigli di lettura tramite TikTok ma non solo La comunità romance molto coesa fortemente appassionata ma chi la osserva da fuori spesso non può immaginare quanto il mondo letterario legato a quello che un tempo era definito come rosa sia variegato e brulicante di novità trasformazioni ed energia Con questo atlante concepito come una sorta di Bignami del romance è rivolto a chi già ama questo mondo ma anche a chi ha appena iniziato a divorare queste romantiche storie e a farsi intrappolare da pagine ricche di passione e colpi di scena Lidia Ottelli ideatrice del Festival del Romance e Carmen Bruni autrice di lungo corso vogliono far invaghirsi risvegliare l'amore e rinsaldare la passione verso il genere sulla bocca di tutti **Musical Spaces** James Williams, Samuel Horlor, 2021-11-29 There is growing recognition and understanding of music's fundamentally spatial natures with significances of space found both in the immediacy of musical practices and in connection to broader identities and ideas around music Whereas previous publications have looked at connections between music and space through singular lenses such as how they are linked to ethnic identities or how musical images of a city are constructed this book sets out to explore intersections between multiple scales and kinds of musical spaces It complements the investigation of broader power structures and place based identities by a detailed focus on the moments of music making and musical environments revealing the mutual shaping of these levels The book overcomes a Eurocentric focus on a typically narrow range of musics especially European and North American classical and popular forms with case studies on a diverse set of genres and global contexts inspiring a range of ethnographic text based historical and practice based approaches *The Unofficial Guide to Walt Disney World 2017* Bob Sehlinger, Len Testa, 2016-09-20 Hotels attractions and restaurants in all price categories are listed with evaluations based on reader surveys and critiques compiled by unbiased inspectors of Orlando's most famed attraction **The European Encyclopedia** Jeff Loveland, 2019-07-04 Organized thematically this book tells the story of the European encyclopedia from 1650 to the present **The Theory of Multi-level Governance** Simona Piattoni, 2010-02-25 This book explores the theoretical issues empirical evidence and normative debates elicited by the concept of multi level governance MLG The concept is a useful descriptor of decision making processes that involve the simultaneous mobilization of public authorities at different jurisdictional levels as well as that of non governmental organizations and social movements It has become increasingly

relevant with the weakening of territorial state power and effectiveness and the increase in international interdependencies which serve to undermine conventional governmental processes This book moves towards the construction of a theory of multi level governance by defining the analytical contours of this concept identifying the processes that can uniquely be denoted by it and discussing the normative issues that are raised by its diffusion particularly in the European Union It is divided into three parts each meeting a specific challenge theoretical empirical normative It focuses on three analytical dimensions multi level governance as political mobilization politics as authoritative decision making policy and as state restructuring polity Three policy areas are investigated in vindicating the usefulness of MLG as a theoretical and empirical concept cohesion environment higher education with particular reference to two member states the UK and Germany Finally both the input and output legitimacy of multi level governance decisions and arrangements and its contribution to EU democracy are discussed As a loosely coupled policy making arrangement MLG is sufficiently structured to secure coordination among public and private actors at different jurisdictional levels yet sufficiently flexible to avoid joint decision traps This balance is obtained at the cost of increasingly blurred boundaries between public and private actors and a change in the established hierarchies between territorial jurisdictions
