Two Thousand Seasons:

Two Thousand Seasons Ayi Kwei Armah, 1973 *Two Thousand Seasons* Ayi Kwei Armah, 2000 A beautiful kernel of history which adds a lot of clarity to the impact and grip of Islam on western Sub Saharan Africa and the fight of a people to preserve their ancestral heritage the so called way Two Thousand Seasons Ayi Kwei Armah, 1979 **Fertile Crossings** Pietro Deandrea, 2002 In retracing some of the routes followed by West African literature in English over the course of the last three decades this book employs an original multidimensional approach whereby the three main genres narrative poetry and drama are considered in the light of their intricate web of fecund rapport and mutual influence Authors such as Tutuola Armah Aidoo and Awoonor translated the fluid structures of orality into written prose and consequently infused their works with poetic and dramatic resonance thereby challenging the canonical dominance of social realism and paving the way for the birth of West African magical realism in Laing Okri and Cheney Coker Starting in the 1970s poetry on stage has become a mainstream genre in Ghana thanks to performances by Okai Anyidoho and Acquah Boundaries between literary theatre and other genres have undergone a similar dissolution in the affirmation of the concept of total art from Efua Sutherland to ben Abdallah Osofisan and others *Fertile Crossings* offers a study of these topics from various viewpoints blending in depth textual analysis with reflections on the political import of the works in question within the context of the present state of African societies all supported by interviews with most of the authors Left Universalism, Africentric Essays Ato Sekyi-Otu, 2018-08-06 *Left Universalism Africentric Essays* presents a defense of universalism as the foundation of moral and political arguments and commitments Consisting of five intertwined essays the book claims that centering such arguments and commitments on a particular place in this instance the African world is entirely compatible with that foundational universalism Ato Sekyi Otu thus proposes a less conventional mode of Africentrism one that rejects the usual hostility to universalism as an imperialist Eurocentric hoax Sekyi Otu argues that universalism is an inescapable presupposition of ethical judgment in general and critique in particular and that it is especially indispensable for radical criticism of conditions of existence in postcolonial society and for vindicating visions of social regeneration The constituent chapters of the book are exhibits of that argument and question some fashionable conceptual oppositions and value apartheid This book will be of great interest to students and scholars in the fields of social and political philosophy contemporary political theory postcolonial studies African philosophy and social thought **Social and Legal Theory in the Age of Decoloniality** Warikandwa, Tapiwa Victor, 2018-06-08 Right from the enslavement era through to the colonial and contemporary eras Africans have been denied their human essence portrayed as indistinct from animals or beasts for imperial burdens Africans have been historically dispossessed and exploited Postulating the theory of global jurisprudential apartheid the book accounts for biases in various legal systems norms values and conventions that bind Africans while affording impunity to Western states Drawing on contemporary notions of animism transhumanism posthumanism and

science and technology studies the book critically interrogates the possibility of a jurisprudence of anticipation which is attentive to the emergent New World Order that engineers human beings to become nonhumans while nonhumans become humans Connecting discourses on decoloniality with jurisprudence in the areas of family law environment indigenisation property migration constitutionalism employment and labour law commercial law and Ubuntu the book also juggles with emergent issues around Earth Jurisprudence ecocentrism wild law rights of nature Earth Court and Earth Tribunal Arguing for decoloniality that attends to global jurisprudential apartheid this tome is handy for legal scholars and practitioners social scientists civil society organisations policy makers and researchers interested in transformation decoloniality and Pan Africanism
