Denton,Sal Restivo,2008-10-30

The modern world is filled with debate and controversy and science and technology the most characteristic features of the modern world are not immune Science and technology are implicated in many if not all of the issues troubles and problems students are likely to come across in their classes and in their everyday lives Science and technology serve as a primary pathway to understanding front page headlines on everything from war to AIDS and from oil exploration to global warming Battleground Science and Technology examines the most hot button issues involving science and technology and provides a balanced assessment of the arguments on all sides of the often strident debates The approximately 100 issues examined in Battleground Science and Technology include topics in the brain sciences including the controversies over the cause of autism and the reliability of memory as well as the debates over parapsychology debates surrounding information technology such as only privacy the impact of video games on social behavior and the advent of virtual reality the complexity over drugs and medications such as the testing of the efficacy of medications the war on recreational drugs and the costs of pharmaceutical research and hot button topics that are constantly in the news such as evolution and creationism DNA testing stem cell research and genetically modified organisms Each entry provides a list of accessible resources useful for further research **The Brain, the Mind, and the Person Within** Mark Cosgrove,2019-03-21

The brain with its nearly one hundred billion neurons is the most complex structure in the universe and we are living in a period of revolutionary advancements in neuroscience Yet scientists and skeptics often frame these findings in ways that challenge the Christian worldview Many professionals and popularizers claim that human beings are their brains and that all human behavior and experience are merely by products of brain physiology In The Brain the Mind and the Person Within professor of psychology Mark Cosgrove not only explains what the brain is and what it does but also corrects common misinterpretations and demonstrates that what we know about the brain coheres with the teachings of Scripture He contends that humans are unities of soul and body in which both the spiritual and the physical interact From this perspective he presents informative overviews of contemporary debates about the brain including consciousness free will God spots personhood and life after death The better we understand the brain the better we understand ourselves and our exquisite design that reflects the wisdom of the Creator Thoughtful readers will find this to be a fascinating accessible survey of this unique part of the body and the profound theological and technological issues surrounding it **Art from Your Core** Kate Kretz,2024-02-08

This book guides artists through the discovery and development of the art that they alone were born to create Through real life

examples and exercises we tear down the cultural educational and psychological obstacles to finding authentic visual voice stripping away years of assumptions external and self imposed limiting parameters We learn how to listen to the Universe and get out of the way when work wants to come through us We construct a core foundation unique to each artist one that will grow along with them in their artistic practice Artists will discover their own singular visual vocabulary by mining their personal history psyche and world view to reveal new creative directions and learn how to intensify and develop their core ideas to make them more resonant and complex We explore methodologies to tap into the subconscious cultivate breakthroughs create environments to maximize the gestation of ideas instill bravery and do meaningful research to produce deeply layered works of art While designed for college students professional artists will also find it allows them to get to that illusive next level in their work the one that calls to them haunts them in their dreams yet remains unarticulated in their practice In addition to helping undergraduate and graduate students who are looking to identify articulate and hone their vocabulary it can serve as a tool for more established artists to step up or refresh their practice It is the kind of book that artists will keep on the studio shelf to pick up time and time again as their responses to the exercises will change throughout the course of their career There are extensive lists exercises and questionnaires anecdotes of art historically significant artists and detailed descriptions of the methodologies they employ to tap into the subconscious various types of research on creative breakthroughs and how to apply it to your own process helpful suggestions to create an environment lifestyle to maximize the gestation of ideas and how to do meaningful research to produce deeply layered works of art While the tone of the book is often earnest and spiritual in an art is religion kind of way Kretz is aiming for a straightforward accessible kind but no nonsense tenor with some humor and nurturing tough love when needed to say some of the things that artists need to hear but few people have the guts to tell them

The Body in Theory Becky R. McLaughlin, Eric Daffron, 2021-09-06 The body has always had the potential to unsettle us with its strange exigencies and suppurations its demands and desires and thus throughout the ages it has continued to be a subject of interest and obsession This collection of twelve peer reviewed essays on Jacques Lacan and Michel Foucault interrogates the body in all of its beauty and with all of its blights and blemishes Written by a diverse body of scholars art historians cultural theorists English professors philosophers psychoanalysts and sociologists from North America and Europe these essays bring into conversation two intellectual giants frequently seen as antagonists and thus rarely seen together Topics covered include the intersections of Foucault and Lacan and how they bring to light new thoughts on the senses the self destructive body ableism and disability in Guillermo del Toro's film *The Shape of Water* body image and the ego selfie culture and metamorphosis in Ottessa Moshfegh's novel *My Year of Rest and Relaxation* among others
