Thomas Jefferson The American Presidents Series The 3rd President 1801 1809:

Thomas Jefferson Joyce Appleby, 2013-11-05 An illuminating analysis of the man whose name is synonymous with American democracy Few presidents have embodied the American spirit as fully as Thomas Jefferson He was the originator of so many of the founding principles of American democracy Politically he shuffled off the centralized authority of the Federalists working toward a more diffuse and minimalist leadership He introduced the bills separating church and state and mandating free public education He departed from the strict etiquette of his European counterparts appearing at state dinners in casual attire and dispensing with hierarchical seating arrangements Jefferson initiated the Lewis and Clark expedition and seized on the crucial moment when Napoleon decided to sell the Louisiana Territory thus extending the national development In this compelling examination distinguished historian Joyce Appleby captures all of the richness of Jefferson's character and accomplishments

Get Your Knee Off Our Necks Bruce E. Johansen, Adebowale Akande, 2022-01-04 The death of George Floyd on May 25 2020 and the ensuing trial of Derek Chauvin for murder a year later has rubbed raw the bloodiest stain on the United States history and its world reputation The nine minutes and 29 seconds during which Chauvin's knee crushed the spark of life out of Floyd was not unusual in the history of the United States Before the U S Civil War slaves were routinely beaten to death for disobeying orders or running away then often lynched In roughly two centuries Blacks have achieved nominal freedom But as this book's opening chapter and expert essays that follow indicate freedom has been conditional based on inequity of wealth social and legal discrimination None of this is new in the United States what is new is the number of people rising up in protest a figure in the millions around the world after Floyd's murder This book supplies a readable scholarly account of recent issues in race and racism in the United States that will be useful for general readers undergraduate students and their professors It will be useful in many fields including Black studies other ethnic pursuits United States history law criminal justice intercultural communication et al The work contains a powerful historical narrative followed by several important essays on subjects including George Floyd's
