

WARNING

This information is intended for use by individuals possessing adequate background of electrical and mechanical experience. Any attempt to repair or control air conditioning product may result in personal injury and/or property damage. The manufacturer or seller cannot be responsible for the interpretation of this information, nor can it assume any liability in connection with its use.

WARNING

These units use R-410A refrigerant which operates at 50 to 70% higher pressures than R-22. Use only R-410A approved service equipment. Refrigerant cylinders are painted a "Rose" color to indicate the type of refrigerant and may contain a "fill" tube to allow for charging of liquid refrigerant into the system. All R-410A systems use a POE oil that readily absorbs moisture from the atmosphere. To limit this, "leak-free" system, the system should remain sealed whenever possible. If a system has been open to the atmosphere for more than 4 hours, the compressor oil must be replaced. Never break a vacuum with air and always charge the doors when opening the system for component replacement. For specific handling concerns with R-410A and POE oil reference Rotolife Gases: 50-APG000-CH and APH-APG001-CH or APH-APG001-CH.

WARNING

UNIT CONTAINS R-410A REFRIGERANT. R-410A operating pressures exceed the limit of R-22. Proper service equipment is required. Failure to use proper service tools may result in equipment damage or personal injury.

SERVICE

USE ONLY R-410A REFRIGERANT AND AP-APPROVED POE COMPRESSOR OIL.

WARNING

Extreme caution should be exercised when opening the Liquid Line Service Valve. Turn counter-clockwise until the valve stem just touches the rolled edge. No torque is required. Failure to follow this warning will result in abrupt release of system charge and may result in personal injury and/or property damage.

WARNING

LIVE ELECTRICAL COMPONENTS

During installation, testing, servicing, and troubleshooting of this product, it may be necessary to work with live electrical components. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.

CAUTION

If using existing refrigerant lines make certain that all joints are brazed, not soldered.

CAUTION

Small compressed dome temperatures may be hot. Do not touch the top of compressor. It may cause minor to severe burning.

Trane Service Manuals Xb13

Léo Pomar

Trane Service Manuals Xb13:

As recognized, adventure as skillfully as experience virtually lesson, amusement, as well as promise can be gotten by just checking out a book **Trane Service Manuals Xb13** afterward it is not directly done, you could receive even more going on for this life, in the region of the world.

We pay for you this proper as competently as simple exaggeration to get those all. We give Trane Service Manuals Xb13 and numerous ebook collections from fictions to scientific research in any way. in the middle of them is this Trane Service Manuals Xb13 that can be your partner.
