Transformational Governance How Boards Achieve Extraordinary Change:

Transformational Governance Beth Gazley, Katha Kissman, 2015-07-02 There has never been so much pressure on nonprofit boards of directors to achieve a level of accountability that meets public and stakeholder expectations. Member serving association boards may be especially challenged by their more complex affiliate structures and a greater emphasis on representative governance. But what does the journey to good governance look like? Markedly different from existing board development books, this modern approach focuses less on the behaviors and qualities of high performing boards and more on the stages and processes that directors and their staff used to transform their boards. Based on research funded by the ASAE Foundation, the book fills a gap in the governance literature by emphasizing diagnosis and problem solving using the actual tools and activities implemented by 85 transformed associations. Combining the credibility of scholarly research with lively and compelling stories, tools and teachable moments, this book is designed to help associations and other nonprofit organizations achieve the entire journey to good governance from first to last steps.

Cultural Governance in a Global Context Ian W. King, Annick Schramme, 2019-01-17 This original book explores the character of cultural governance of arts and cultural institutions in eight countries across five continents. Examining strategy and decision making at an organisational level, this is the first empirical contribution on cultural policy and management revealing how it is applied across the globe in otherwise unexplored countries. Concerned with the assumption that one size fits all, the chapter authors analyse how cultural governance is managed within arts organizations in a range of countries to assess whether some locations are trying to apply unsuitable models. The chapters aim to discover and assess new practices to benefit the understanding of cultural governance and the arts sector which have as yet been excluded from the literature. As a collection of local accounts, this book offers a broad and rich perspective on managing cultural governance around the world.
