Transboundary Environmental Governance In Asia Practice And Prospects With The Unece Agreements:

Transboundary Environmental Governance in Asia Simon Marsden, Elizabeth Brandon, 2015-04-30 A comprehensive overview of treaty implementation and compliance concerning transboundary environmental governance in Asia is provided in this timely book Recent United Nations Economic Commission for Europe UNECE membership by Asian states in the C

Transboundary Freshwater Ecosystems in International Law Ruby Moynihan, 2021-10-14 A global water crisis with far reaching and interconnected environmental social health and economic impacts threatens the world Healthy ecosystems and ecosystem services are degrading and access to a sustainable water supply is increasingly inequitable both within and between States This book demonstrates how to overcome the global freshwater ecosystem crisis by matching the scientific recommendations with an international legal framework fit for the task which re orientates international water law towards a stronger ecosystem approach that also protects vulnerable societies It illustrates how to understand the fragmented legally binding and non binding instruments of the United Nations Economic Commission for Europe environmental treaties as one coherent legal regime which contributes to strengthening general rules and principles of the law concerning transboundary freshwater ecosystems With the recent global opening of the UNECE regime this book explores its potential role within the European region Central Asia Caucasus Africa the Middle East and beyond **Environmental Regimes in Asian**

Subregions Simon Marsden, 2017-03-31 Informed by international law international relations and environment management scholarship this interdisciplinary analysis of environmental regimes in Asian subregions proposes a new regime for the Himalayas and Tibetan Plateau based on China s cooperation with its south Asian neighbors Protecting the Third Pole

Simon Marsden, 2019 This highly topical book considers the important question of how best to protect the environment of the Third Pole the area comprising the Hindu Kush Himalayas and Tibetan Plateau using the tool of international law Following detailed analysis of the weaknesses in the current legal protections according to comparative legal theory Simon Marsden recommends three potential options for implementation by policy and lawmakers Asian Yearbook of International Law, Volume 21 (2015) Seokwoo Lee, Hee Eun Lee, 2017-10-17 Launched in 1991 the Asian Yearbook of International Law is a

major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in

multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies

The Oxford Handbook of International Law in Asia and the Pacific Simon Chesterman, Hisashi Owada, Ben Saul, 2019-09-12 The growing economic and political significance of Asia has exposed a tension in the modern international order Despite expanding power and influence Asian states have played a minimal role in creating the norms and institutions of international law today they are the least likely to be parties to international agreements or to be represented in international organizations That is changing There is widespread scholarly and practitioner interest in international law at present in the Asia Pacific region as well as developments in the practice of states The change has been driven by threats as well as opportunities Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia These evolutions join the long standing interest in parts of Asia notably South Asia in post colonial theory and the history of international law The Oxford Handbook of International Law in Asia and the Pacific brings together pre eminent and emerging specialists to analyse the approach to and influence of key states of the region as well as whether truly Asian trends can be identified and what this might mean for international order

Strengthening International Fisheries Law in an Era of Changing Oceans Richard Caddell, Erik J Molenaar, 2019-04-04 This collection addresses the central question of how the current international framework for the regulation of fisheries may be strengthened in order to meet the challenges posed by changing fisheries and ocean conditions in particular climate change International fisheries law has developed significantly since the 1990s through the adoption and establishment of international instruments and bodies at the global and regional levels Global fish stocks nevertheless remain in a troubling state and fisheries management authorities face a wide array of internal and external challenges including operational constraints providing effective management advice in the face of scientific uncertainty and non compliance by States with their international obligations This book examines these challenges and identifies options and pathways to strengthen international fisheries law While it has a primarily legal focus it also features significant contributions from specialists drawn from other disciplines notably fisheries science economics policy and international relations in order to provide a fuller context to the legal policy and management issues raised Rigorous and comprehensive in scope this will be essential reading for lawyers and non lawyers interested in international fisheries regulation in the context of profoundly changing ocean conditions
