The physician patient bond is a significant relationship intended to effect healing in our patient but is it the patient alone who benefits

We are all patients at some point

As a patient how well do we know our self how clearly do we communicate what troubles us to our doctor to others

Even when we are feeling healthy we remain aware of some aspects of our lives that need healing

For many of us it is our relationships that need healing

This book is an essential exploration into the challenges inherent in the physician patient dynamic and extends the findings to other important encounters

The reason it is appropriate for everyone physician or not is because the principles adhered to in its writing are universal in reach and eternally relevant

Its sole purpose is to promote healing in our world individually and collectively

Whatever our vocation we are each called to be an essential effective healer in some way that is natural to us our gift to the world

Here we are reminded that when we promote conditions for healing in our relationships we manifest miracles naturally
