Transforming Government And Public Services:

Transforming Government and Public Services Stephen Jenner, 2010 Stephen Jenner explores a number of key themes that are fundamental to an approach to project portfolio management built on value. He explains how to develop a business case to achieve a desired intent rather than justify a particular solution, create project documentation that is both technically rigorous and gives users a clear understanding of where you are going, treat projects as investments rather than costs, include stage gates with teeth that are closely linked to real performance plan for success rather than holding people to account for failure, use a single version of the truth principle so there are no arguments about different data. Public Sector

Transformation through E-Government Vishanth Weerakkody, Christopher G. Reddick, 2012-11-12 Over the last decade governments in Europe and North America have attempted to improve efficiency of public services through Information and Communication Technology commonly branded as electronic government. *e government* Public Sector Transformation through E Government explores the influence that e government has on public sector organizations, the organizational complexities that result and its impact on citizens and democratic society. This book examines e government's potential to transform public services from a theoretical perspective and provides practical examples from leading public sector institutions that have utilized e government as a basis to bring about change. It further investigates the relationship between citizens and government and how they are affected by e government policies and programs. Aimed at students and researchers of public administration, management and information systems, this book serves as a welcome tool for examining and understanding e government and transformational change. *Transforming Government and Empowering Communities* Nagy Hanna, 2008 A case study of why and how national e leadership institutions, e government and e society programs were designed and implemented. The book examines the process of building national ICT institutions, showing how to design and implement an integrated e government program. The book describes how a fund was developed to promote grassroots innovations that leverage ICT to solve problems of rural development and poverty. The book proposes national e strategies be grounded in an integrated framework and institutional mechanisms that would exploit synergies and interdependencies among the different e. *Transforming Government Organizations* Ronald R. Sims, William I. Sauser, Sheri K.

Bias, 2016-04-01 In 2010 IAP released *Change Transformation in Government Organizations* edited by Ronald R. Sims. This well-received volume described how organizational change methods can be used effectively to make government organizations more effective and efficient and better equipped to serve a demanding citizenry. The 2010 book brought together contributions by managers, practitioners, academics and consultants in the study of international, federal, state and local government efforts to respond to increased calls for change transformation in public sector organizations. Since the release of the 2010 volume, calls for government transformation have continued and intensified and a number of fresh ideas and examples have been generated from the field. The time is now ripe for a follow-up volume laying out innovative, successful

ideas for transforming government Transforming Government Organizations Fresh Ideas and Examples from the Field is that follow up volume A collection of fresh contributions such as those included in this book will add to the growing knowledge base of what does and what does not work when transformation efforts are attempted in government organizations The contributors to this new volume are experts with extensive experience as change agents in government and other organizations They provide analyses and discussions of specific cases and issues as well as practical tools ideas and lessons learned intended to guide those responsible for similar efforts in the years to come The audience for the book are government managers scholars and others interested in undertaking or learning about such efforts **Transforming**

Public Services—Combining Data and Algorithms to Fulfil Citizen's Expectations Christophe Gaie, Mayuri Mehta, 2024-05-04 This book provides a precise portrayal of the current trends and future perspectives of e Government It outlines new approaches that optimize public services across diverse sectors Going beyond traditional boundaries it offers mathematical models for public services supported by convincing case studies This book significantly enhances various government services such as education healthcare safety security and culture It also strongly emphasizes safeguarding citizens personal data ensuring privacy and obtaining explicit consent Tailored for students and academics the book is an invaluable reference for teaching graduate courses in e Government Process Modelling or Artificial Intelligence Its impact extends beyond the classroom civil servants from all domains can find practical insights to navigate the ongoing modernization of public services Even citizens curious about the transformation in their public services can find this book enlightening Researchers working in the area of e Governance can use this book to discover the recent developments in e Government Transforming Government and Building the Information Society Nagy K. Hanna, 2010-03-20 Information and communication technology ICT is central to reforming governance innovating public services and building inclusive information societies Countries are learning to weave ICT into their strategies for transforming government as enterprises have learned to use ICT to innovate and transform their processes and competitive strategies ICT enabled transformation offers a new path to digital era government that is responsive to the challenges of our time It facilitates innovation partnering knowledge sharing community organizing local monitoring accelerated learning and participatory development In Transforming Government and Building the Information Society Nagy Hanna draws on multi disciplinary research on ICT in the public sector and on his rich experience of over 35 years at the World Bank and other aid agencies to identify the key ingredients for the strategic integration of ICT into governance and poverty reduction strategies The author showcases promising practices from around the world to outline the strategic options involved in using ICT to maximize developmental impact transforming government institutions and public services and empowering communities for inclusion and grassroots innovation Despite the ICT promise Hanna acknowledges that reforming governance and empowering poor communities are difficult long term undertakings Hanna moves beyond the imperatives and visions of e transformation to strategic design and
