Political Economy of Transition and Development Nauro F. Campos, Jan Fidrmuc, 2003-11-30 Political Economy of Transition and Development collects the proceedings of an international conference that brought the leading thinkers in this field to the Center for European Integration Studies of the University of Bonn in May 2002 The contributions analyze the various interactions between institutions policy choices economic developments and political outcomes in transition and developing countries The first five chapters give a relatively broad assessment of the various reform paths and outcomes in the transition and developing countries The remaining eight chapters proceed to analyze important aspects of transition such as voting behavior political regime choice corruption social capital growth and inequality and EU enlargement The resulting volume thus combines a bird's eye perspective with a relatively narrow focus on selected key issues pertaining to the ongoing transition process in Central and Eastern Europe

Labor Markets and Social Policy in Central and Eastern Europe N. A. Barr, 2005-01-01 Labor Markets and Social Policy in Central and Eastern Europe summarises social policy reform during the transition and EU accession and analyses the social policy challenges which continue to face both old and new member states Specifically the book amplifies two sets of arguments First social policy under communism was in important respects well suited to the old order and precisely for that reason was systematically badly suited to a market economy Strategic reform directions thus followed from the nature of the transition process and from constraints imposed by EU accession Secondly successful accession is not the end of the story economic and social trends over the past 50 years are creating strains for social policy which all countries old and new members will have to face This book will be of interest to readers interested in social policy particularly those with an interest in the process of post communist transition in EU accession and in future social policy challenges for the wider Europe It should be of interest to academics in departments of economics social policy and political science and to policy makers including government advisers and civil servants
