Summary of Thinking, Fast and Slow Ninja Reads, 2019-10-21 PLEASE NOTE This concise summary is unofficial and is not authorized approved

licensed or endorsed by the original book's publisher or author. Short on time? Or maybe you've already read the book but need a refresh on the most important takeaways. In a quick, easy listen, you can take the main principles from *Thinking Fast and Slow*. In the 2011 bestseller *Thinking Fast and Slow*, Daniel Kahneman, an economist and psychologist, writes about the way humans make decisions and judgments in a complex world. One of the most renowned economic scholars, his work is also commonly used in sectors such as psychology and even policy making. In *Thinking Fast and Slow*, Kahneman helpfully points out the errors in thinking that people commonly have and fall victim to. He frames them as a series of illusions in a well-organized, direct fashion. Through this work, he enables readers to better make decisions and resist any harmful proclivities they may have. Throughout the book, he extensively details the factors that go into the unseen side of our choices. He gives heaps of statistical information as well as coloring this information with various vignettes showcasing different studies done by him and other researchers who inspired or furthered his work. Crucially, he discusses the roles of two systems in our mind: the fast and the slow brain. System 1 and System 2, respectively. These two systems often fail us, leading us to make decisions based on our intuition rather than all the information in front of us. Nevertheless, they stem from evolutionary measures meant to keep us safe, and by understanding how these thoughts work, we can learn how to make stronger decisions.

Thinking, Fast and Slow: by Daniel Kahneman | Summary & Analysis

Elite Summaries, Daniel Kahneman, a psychologist and Nobel Prize winner, is the author of the fascinating book *Thinking Fast and Slow*. In general, when we make decisions, be it personally or professionally, all of us utilize two basic thinking systems for problem solving and the importance of utilizing the right system. This book is all about two basic thinking systems. The first system is Fast Thinking, and the second system is Slow Thinking.

Fast Thinking is what our gut tells us what we should do. It is intuitive, emotional, and done with little thought or effort. Slow thinking is slow, deliberate, and logical. It usually takes more time, often includes numerical or factual information that our brain needs to process, and is void of emotion. Kahneman expresses the importance of making it a habit to train our brains into using the right way of thinking as we make decisions, as utilizing the wrong thinking system can lead to poor or even disastrous consequences. Kahneman, through intensive behavioral study, has determined that people are more successful if they can lean on the Slow Thinking method. Kahneman teaches his proven theory simply and includes a plan of action for learning to train the brain to use the correct thinking system. This novel takes a fascinating look at behaviors that can change our lives personally, professionally, and financially. It is a book you should read to improve and utilize your thinking system the right way.

Summary: Thinking Fast and Slow in Less Than 30 Minutes

Book Summary, 2016-03-22. *Thinking Fast and Slow* by Daniel Kahneman. Book Summary. In this book, you'll learn how your mind comes to a conclusion based upon previous results and statistics. You'll learn how to better control your emotions and how to judge why you make the decisions you do. For example, you might find that whenever you think about a

friend you'll think of a particular memory related to that person. You'll learn in this book that this is an automatic reaction of System One and then System Two analyses the memory to remember the conversations or exact experiences. This book, if interpreted correctly, will teach you to have a greater level of understanding about yourself so that you can judge why you say, think, and do, providing insight into the things you do in various scenarios.

Here is a preview of what you'll learn:

- 2 Systems
- One Mind
- Enhance your Mental Abilities
- Is Your Personal Halo Shining Bright?
- 2 Today or 4 Tomorrow?
- Do You Remember Now?
- Conclusion

Thinking, Fast and Slow... in 30 Minutes

30 Minute Expert Summary Staff, 2012-12-01

Decisions you make hundreds every day, but do you really know how they are made? When can you trust fast, intuitive judgment, and when is it biased? How can you transform your thinking to help avoid overconfidence and become a better decision maker?

Thinking Fast and Slow in 30 Minutes is the essential guide to quickly understanding the fundamental components of decision making outlined in Daniel Kahneman's bestselling book *Thinking Fast and Slow*.

Understand the key ideas behind *Thinking Fast and Slow* in a fraction of the time. Concise chapter-by-chapter synopses, essential insights, and takeaways highlighted. Illustrative case studies demonstrate Kahneman's groundbreaking research in behavioral economics.

In *Thinking Fast and Slow*, Daniel Kahneman, best-selling author and recipient of the Nobel Prize in Economics, has compiled his many years of groundbreaking research to offer practical knowledge and insights into how people's minds make decisions. Challenging the standard model of judgment, Kahneman aims to enhance the everyday language about thinking to more accurately discuss, diagnose, and reduce poor judgment.

Thought Kahneman explains, he has two distinct systems: the fast and intuitive System 1 and the slow and effortful System 2. Intuitive decision making is often effective, but in *Thinking Fast and Slow*, Kahneman highlights situations in which it is unreliable when decisions require predicting the future and assessing risks.

Presenting a framework for how these two systems impact the mind, *Thinking Fast and Slow* reveals the far-reaching impact of cognitive biases, from creating public policy to playing the stock market to increasing personal happiness, and provides tools for applying behavioral economics toward better decision making.

A 30 Minute Expert Summary of *Thinking Fast and Slow*. Designed for those whose desire to learn exceeds the time they have.
