The Late Foucault Marta Faustino, Gianfranco Ferraro, 2020-12-10 Michel Foucault is one of the most important and controversial thinkers of the twentieth century and one of the leading figures in contemporary Western intellectual life and debate The recent publication of his last lecture courses at the Collège de France 1981-1984 together with the short texts, essays and interviews from the same period have sparked new interest in his work allowing for a new understanding of his philosophical trajectory and challenging several interpretations produced over the last few decades In this later phase of his thinking Foucault deepens and expands the course of his preceding works on the genealogy of subjectivity while at the same time adding a significant ethical and political dimension to it His focus on the ancient ethics of care of the self and technologies of self constitution during this period adds important nuances to his previous positions on power, truth and subjectivity shedding new light on his philosophical endeavour as a whole and situating his reflections at the centre of current moral debates Focusing on the last stage of Foucault's thought this book brings together international scholars to relaunch the critical debate on the significance of Foucault's so-called ethical turn and to discuss the ways in which the perspectives offered by Foucault in this period might help us to unravel modernity giving us the tools to understand and transform our present ethically and politically

Foucault's Aesthetics of Existence and Shusterman's Somaesthetics Valentina Antoniol, Stefano Marino, 2024-07-25 Bringing together Michel Foucault's aesthetics of existence and Richard Shusterman's somaesthetics this volume provides a critical comparison of two of the most influential philosophical theories of the late 20th and early 21st centuries Introduced by a comprehensive overview of both concepts by editors Stefano Marino and Valentina Antoniol the ensuing chapters interrogate the affinities and variances between Foucault's and Shusterman's philosophies Building on the interdisciplinary character of somaesthetics and aesthetics of existence international scholars explore these ideas through a wide range of topics ranging from care of the self and of the social self to the ethical and political challenges posed by themes as white ignorance, construction of resistances and production of subjectivities Given the central role played by the body in both concepts this volume also affords particular attention to the philosophy of sexuality Demonstrating the value of reading these two thinkers together through the adoption of radical interpretive perspectives Foucault's Aesthetics of Existence and Shusterman's Somaesthetics highlights the potentialities and the relevance of Foucault's and Shusterman's theories even with respect to our actuality
