Excess Kim Humphery,2013-04-23 Over consumption is one of the key issues of our time especially in the Western world Over the past decade in the face of historically unprecedented levels of consumer spending in the West and the more recent impact of recession a vigorous politics of anti consumerism has emerged in a range of wealthy nations This timely and original new book provides a comprehensive overview and analysis of what has come to be called the new politics of consumption a politics embodied in movements such as culture jamming simple living slow food and fair trade The book offers an examination of anti consumerism at a time when the idea of consumer excess is being re framed by a global economic downturn and crucially explores what this means for the future of political debate Drawing on interviews with activists across three continents and offering a refreshingly accessible discussion of contemporary commentary and theory Kim Humphery sympathetically explores anti consumerism as cultural interpretation lifestyle change and collective action Whilst analysing the positive advances of the anti consumerist movement Excess also challenges contemporary critical thinking on consumption taking issue with the return to theories of mass culture in contemporary anti consumerist polemic Alternatively Humphery begins to forge a politics of anti consumerism that addresses the complexity of material acquisition

and which avoids treating consumers as mere dupes in the logic of capitalism viewing them instead as active participants in a culture which is capable of transformation Breastwork Alison Bartlett,2005 Breastwork delivers an original and personal approach to a near universal practice and doesn't shy from controversy or controversial topics such as sexual desire and breastfeeding It features a broad range of illustrations from Renaissance paintings of mother and child Madonna del Latte to Jerry Hall breastfeeding on the cover of Vanity Fair and Kate Langbroek breastfeeding on The Panel to a banned New Zealand health poster of a man breastfeeding at work **Making Sense of God** Timothy Keller,2016-09-20 We live in an

age of skepticism Our society places such faith in empirical reason historical progress and heartfelt emotion that it's easy to wonder Why should anyone believe in Christianity What role can faith and religion play in our modern lives In this thoughtful and inspiring new book pastor and New York Times bestselling author Timothy Keller invites skeptics to consider that Christianity is more relevant now than ever As human beings we cannot live without meaning satisfaction freedom identity justice and hope Christianity provides us with unsurpassed resources to meet these needs Written for both the ardent believer and the skeptic Making Sense of God shines a light on the profound value and importance of Christianity in our lives

Cosmic Preeminence R L Coursey,2018-06-26 Many who correctly exalt the preeminence of Christ in their theology may yet oppose His preeminence with their priorities Our priorities reveal our portion and location does not change that portion For the psalmist declared the preeminence of Christ in both heaven and earth Whom have I in heaven but Thee and there is none upon earth that I desire besides Thee Ps 73 25 Whenever there are two things that are good the believer who has his priorities aligned with the kingdom never rejects the lesser but always prefers the better And when one of these is finite and the other infinite there must be no competition in his choice Since Christ is preeminent in creation cosmic preeminence must be infinitely higher in our affections than cosmic redemption The new view on heaven is popular because it legitimizes the priorities of a consumer culture by always emphasizing the latter while merely including the former While both are equally true they are not truly equal The priority of the beatific vision is evidenced by the superiority of its object Therefore we should always emphasize the former without failing to mention the latter Once creation and redemption are paired together in our priorities the preeminence of Christ slowly becomes less important and how to gain and or enjoy creation is always the primary emphasis both in this life and the next Like Christ we must differentiate between His kingdom and all those things that are merely added unto us in this life and on the future new earth With the Kingdom clearly in view we must prioritize that mandate Great Commission through which Christ has chosen to extend His kingdom and work of redemption in the world The Creation Mandate given before the Fall like all the commands is not redemptive in nature and the church is the only society of the redeemed Our new identity in Christ without eliminating infinitely supersedes our creation identity simply because Christ infinitely supersedes all creation in worth The problem with exchanging the Great Commission with the Cultural Mandate is that the present mission of Christ to build His church becomes secondary to His work of providence in

culture the power of the gospel becomes secondary to the power of our example and moral influence on society and culture and the preeminence of Christ is no longer based on His person and work but on the success of our work among people We always proclaim what we are wrote Martyn Lloyd Jones by our priorities **Heaven's Kitchen** Courtney Bender,2011-04-15 How do people practice religion in their everyday lives How do our daily encounters with people who hold different religious beliefs shape the way we understand our own moral and spiritual selves In Heaven s Kitchen Courtney Bender takes a highly original approach to answering these questions For more than a year she worked in New York City as a volunteer for a nonprofit nonreligious organization called God s Love We Deliver helping to prepare home cooked meals for people with AIDS Paying close attention to what was said and not said Bender traces how the volunteers gave voice to their moral positions and religious values She also examines how they invested their conversations and mundane activities such as cooking with personal meaning that in turn affected how they saw their own spiritual lives Filled with vibrant storytelling and rich theoretical insights Heaven s Kitchen shows faith as a living practice reshaping our understanding of the role of religion in contemporary American life The Age of Spectacular Death Michael Hviid Jacobsen,2020-09-08 This book explores death in contemporary society or more precisely in the spectacular age by moving beyond classic studies of death that emphasised the importance of the death taboo and death denial to examine how we now do death Unfolding the notion of spectacular death as characteristic of our modern approach to death and dying it considers the new mediation or mediatization of death and dying the commercialisation of death as a marketable commodity used to sell products advance artistic expression or provoke curiosity the re ritualisation of death and the growth of new ways of finding meaning through commemorating the dead the revolution of palliative care and the specialisation surrounding death particularly in relation to scholarship Presenting a range of case studies that shed light on this new understanding of death in contemporary culture The Age of Spectacular Death will appeal to scholars of sociology cultural and media studies psychology and anthropology with interests in death and dying **Why Capitalism Survives Crises** Paul Zarembka,2009-05-21 Focuses attention on why capitalism survives crises by developing the argument that it has moved on from its 19th century embodiment to include a class of shock absorbers This book tells how this class consisting of fractionalised individuals absorbs the massive surpluses of produced commodities **Congressional Record** United States. Congress,1991 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **China's Super Consumers** Savio Chan,Michael Zakkour,2014-09-03 Chinese Consumers are Changing The World Understand Them and Sell To Them China has transformed itself from a feudal economy in the 19th century to Mao and Communism in the 20th century to the largest consumer market in the world by the early

Heaven's Bankers Harris Irfan, 2015-03-10. A leading Islamic finance banker sheds light on an industry with growing global influence. A superb introduction to a fascinating subject. Financial Times. A trillion-dollar financial industry has revolutionized the global economy. Governments and corporations across the Islamic world have turned to finance that complies with Shari'a law in order to fund economic growth. Even in the West, Islamic finance became an important alternative source of funding when the conventional finance industry was reeling from the effects of the financial crisis. From its origins in the seventh century, Islamic finance has sought to develop core ethical principles that are based in the foundations of Islam and Shari'a. But with an increasing Western interest, is it able to remain true to the principles of its faith? Can it maintain its ideals of social justice? Or is Islamic finance guilty of the very dangers it seeks to avoid? In *Heaven's Bankers*, Harris Irfan, one of the world's leading Islamic finance bankers, gives unparalleled insight into the heart of this secretive industry. From his personal experience of working with leading bankers, scholars, and lawyers, he debunks the myths of Islamic banking, analyzes its greatest deals, and looks to the future of a system that has reprioritized the very nature of money itself.

The Poitier Effect Sharon Willis, 2015-03-01. The civil rights struggle was convulsing the nation; its violence broadcast into every living room. Against this fraught background, Sidney Poitier emerged as an image of dignity, discipline, and moral authority. Here was the picture-perfect black man helping German nuns build a chapel in *The Lilies of the Field* and overcoming the prejudices of recalcitrant students in *To Sir with Love*, a redneck sheriff in *In the Heat of the Night*, and a prospective father-in-law in *Guess Who's Coming to Dinner*. In his restrained responses to white people's ignorance and bad behavior, Poitier represented racial reconciliation and reciprocal respect, the Poitier effect that Sharon Willis traces through cinema and television from the civil rights era to our own. The Poitier effect in Willis's account is a function of white wishful thinking about race relations. It represents a dream of achieving racial reconciliation and equality without any substantive change to the white world. This notion of change without change conforms smoothly with a fantasy of colorblindness, a culture in which difference makes no difference. Willis demonstrates

how Poitier's embodiment of such a fantasy figures in the popular cinema of the civil rights era and reasserts itself in recent melodramas such as *The Long Walk Home*, *Pleasantville*, *Far from Heaven*, and *The Help*. From change without change to change we can believe in, her book reveals how the Poitier effect, complicated by contemporary ideas about feminism, sexuality, and privilege, continues to inform our collective memory as well as our visions of a postracial society.
