What They Didn't Teach You in American History Class Mike Henry, 2016-06-07 For the average person most of the American history that he or she knows comes from facts taught to them in school to prepare them for their state mandated tests That s not the fault of their teachers who were just carrying out the directives of their employers But it s also a fact that a great deal of that content that they were teaching is dry and boring However as in every aspect of life there is always another story behind each major event The story of America is interesting and exciting but it s those lesser known parts of our history that make it special Even though in most cases the names and events in the book will be recognizable most of the stories about them will be new to the reader If you re a young teacher perhaps you ll find some material to help you get through those less than exciting areas of your textbook If you hated history as a student maybe you ll find some of these tales entertaining For those of you who are history buffs hopefully you ll come across a few things that are new to you
