*The 15 Commitments of Conscious Leadership* Jim Dethmer, Diana Chapman, Kaley Klemp, 2015 You'll never see leadership the same way again after reading this book These fifteen commitments are a distillation of decades of work with CEOs and other leaders They are radical or provocative for many They have been game changers for us and for our clients We trust that they will be for you too Our experience is that unconscious leadership is not sustainable It won't work for you your team or your organization in the long term Unconscious leadership can deliver short term results but the costs of living and leading unconsciously are great Fear drives most leaders to make choices that are at odds with healthy relationships vitality and balance This fear leaves a toxic residue that won't be as easily tolerated in an increasingly complex business environment Conscious leadership offers the antidote to fear These pages contain a comprehensive road map to guide you to shift from fear based to trust based leadership Once you learn and start practicing conscious leadership you'll get results in the form of more energy clarity focus and healthier relationships You'll do more and more of what you are passionate about

and less of what you do out of obligation You ll have more fun be happier experience less drama and be more on purpose Your team will get results as well They ll be more collaborative creative energized and engaged They ll solve issues faster and once resolved the issues won t resurface Drama and gossip will all but disappear and the energy and resources that fueled them will be redirected towards innovation and creativity Any one of these commitments will change your life All of them together are revolutionary Leaders who practice the 15 commitments End blame and criticism Speak candidly openly and honestly in a way that invites others to do the same Find their unique genius Let go of taking everything especially themselves and their problems so seriously Create win for all solutions Experience a new relationship to time and money where there is always enough What do you need to bring to the table Be curious Sounds so simple and yet in our experience it s a skill few have mastered Most of us are far more interested in being right and proving it than we are in learning growing and shifting out of our old patterns By default we gravitate towards the familiar We re asking you to take a chance and explore the unfamiliar You ll get scared and reactive We all do So what Just stay curious and let us introduce you to a whole new world of leadership
