Jameson, Sergiu Musteață, 2019-06-14 Recent years have witnessed a rapid increase in the fields of cultural heritage studies and community archaeology worldwide with expanding discussions about the mechanisms and consequences of community participation This trend has brought to the forefront debates about who owns the past who has knowledge and how heritage values can be shared more effectively with communities who then ascribe meaning and value to heritage materials Globalization forces have created a need for contextualizing knowledge to address complex issues and collaboration across and beyond academic disciplines using more integrated methodologies that include the participation of non academics and increased stakeholder involvement Successful programs provide power sharing mechanisms and motivation that effect more active involvement by lay persons in archaeological fieldwork as well as interpretation and information dissemination processes With the contents of this volume

Practice Dr.Erkin,2022-01-09 Life as you know is not a honey cake It consists of a series of ups and downs joys and disappointments black and white stripes This book is about how like Baron Munchausen to pull yourself out of the quagmire of life s turmoil gain confidence abilities and again take the way to success The author did a titanic work he processed a ton of valuable information systematized and conceived it and issued this action guide From real stories including from his life he derived basic principles that can help a person choose and create themselves and at the same time not scatter into dozens of small what I losers We really can choose how we live we make this choice ourselves Indeed sometimes we don t even suspect what we are capable of at one or another moment of our life I like this book because it is immediately clear the author experienced all these ups and downs The author chose very vivid and original examples from his life precisely as they say by subject Clearly he chose his life path himself his path to success without knowing what awaits him at the time of choice The main and perhaps the principal postulate of the book is to show courage right now Erkin says Choose yourself from a thousand options and he explains how to do it Therefore do not delay for later choose yourself right now Absolutely true you are the only one who holds you in place A miracle does not come by itself we must accomplish it If you do this you certainly won t understand how to change the world you won t even notice you are changing it But here s what s for sure if you don t take it yourself and as a bold decision for you necessary as air no one will do this for you And sadly life will pass by We are all unique in our way everyone has their own life and way However there is no single true way and every way begins from this moment Have you chosen yourself at this moment Do you feel the fear Do you have doubts You can despite everything show courage Then move forward without fear and doubt Believe and then all paths will lead to a happy ending
