Transforming The Workforce For Children Birth Through Age 8 A Unifying Foundation:

Transforming the Workforce for Children Birth Through Age 8 National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth and they develop and learn at a rapid pace in their early years This provides a critical foundation for lifelong progress and the adults who provide for the care and the education of young children bear a great responsibility for their health development and learning Despite the fact that they share the same objective to nurture young children and secure their future success the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well Transforming the Workforce for Children Birth Through Age 8 explores the science of child development particularly looking at implications for the professionals who work with children This report examines the current capacities and practices of the workforce the settings in which they work the policies and infrastructure that set qualifications and provide professional learning and the government agencies and other funders who support and oversee these systems This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning shared knowledge and competencies for care and education professionals and principles for effective professional learning Young children thrive and learn best when they have secure positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice specific actions to improve professional learning systems and workforce development and research to continue to build the knowledge base in ways that will directly advance and inform future actions The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive and ultimately improve outcomes for children The SAGE Encyclopedia of Contemporary Early Childhood Education Donna Couchenour, J. Kent Chrisman, 2016-03-15 The general public often views early childhood education as either simply babysitting or as preparation for later learning Of course both viewpoints are simplistic Deep understanding of child development best educational practices based on development emergent curriculum cultural competence and applications of family systems are necessary for high quality early education Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research accurate practical applications of research historical foundations and key facts from the field of contemporary early childhood education Through approximately 425

entries this work includes all areas of child development physical cognitive language social emotional aesthetic as well as comprehensive review of best educational practices with young children effective preparation for early childhood professionals and policy making practices and addresses such questions as How is the field of early childhood education defined What are the roots of this field of study How is the history of early childhood education similar to yet different from the study of public education What are the major influences on understandings of best practices in early childhood education

Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty Greene, H. Carol, Zugelder, Bryan S., Manner, Jane C., 2020-03-27 Rural poverty encompasses a distinctive deprivation in quality of life related to a lack of educational support and resources as well as unique issues related to geographical cultural community and social isolation While there have been many studies and accommodations made for the impoverished in urban environments those impoverished in rural settings have been largely overlooked and passed over by current policy The Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty is an essential scholarly publication that creates awareness and promotes action for the advocacy of children and families in rural poverty and recommends interdisciplinary approaches to support the cognitive social and emotional needs of children and families in poverty Featuring a wide range of topics such as mental health foster care and public policy this book is ideal for academicians counselors social workers mental health professionals early childhood specialists school psychologists administrators policymakers researchers and students

Shaping Summertime Experiences National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Summertime Experiences and Child and Adolescent Education, Health, and Safety, 2020-01-30 For children and youth summertime presents a unique break from the traditional structure resources and support systems that exist during the school year For some students this time involves opportunities

to engage in fun and enriching activities and programs while others face additional challenges as they lose a variety of supports including healthy meals medical care supervision and structured programs that enhance development Children that are limited by their social economic or physical environments during the summer months are at higher risk for worse academic health social and emotional and safety outcomes In contrast structured summertime activities and programs support basic developmental needs and positive outcomes for children and youth who can access and afford these programs These discrepancies in summertime experiences exacerbate pre existing academic inequities While further research is needed regarding the impact of summertime on developmental domains outside of the academic setting extensive literature exists regarding the impact of summertime on academic development trajectories However this knowledge is not sufficiently applied to policy and practice and it is important to address these inequalities

Shaping Summertime Experiences examines the impact of summertime experiences on the developmental trajectories of school age children and youth across four areas of well being including academic learning social and emotional development physical and mental health and health promoting and safety behaviors It also reviews the state of science and available literature regarding the impact of summertime experiences In addition this report provides recommendations to improve the experiences of children over the summertime regarding planning access and equity and opportunities for further research and data collection

Learning and Teaching in the Early Years Jane Page, Collette Tayler, 2016-09-13 Learning and Teaching in the Early Years provides a comprehensive contemporary and practical introduction to early childhood teaching in Australia A strong focus on the links between theory policy and practice firmly aligns this text with the Early Years Learning Framework Written for students of early childhood programs this book covers learning and development as well as professional practice in teaching children from birth to eight years In recognition of the evolving role of educators topic areas include learning teaching working with families leading advocating and researching Each chapter contains learning objectives key terms and reflection points Detailed case studies document the intersection between research policy and practice enhancing pre service and practicing educators appreciation of how a policy aligned approach reinforces learning and development in the early years This text draws on the latest research to present children s learning as a dynamic and active process requiring specific intentional teaching behaviours

First Things First! Ruby Takanishi, 2016 Challenging policymakers educators reformers and citizens to replace piecemeal reforms with fundamental redesign First Things First calls for a different way of organizing the American primary school Ruby Takanishi outlines a new framework for integrating early education with primary education pre K 5 including both short and long term strategies that starts with 3 and 4 year olds Featuring portraits of primary schools that have successfully integrated pre K the book includes resources on dual language learners dual generation family engagement effective philanthropy rethinking advocacy and more The book centers on four basic questions Why should the United States design a new primary school as children s first widely shared educational experience How can the educators of

the new primary school use new knowledge about how children learn to improve their practice What will it take to create a new primary school that educates all children well How can the design of the new primary school reflect demographic social linguistic and cultural changes and adapt to the requirements of a global economy First Things First reframes the basic structure of traditional primary education challenging us to get the early years of a 21st century public education system off to a new and stronger start The vision of a new primary school model in this book should be studied by all workers in the fields of education human development and social policy The scholarship in this book is impeccable and the arguments advanced by this leading scholar are most convincing Further the book is beautifully written Edward Zigler Sterling Professor of Psychology Emeritus Yale University Takanishi makes a compelling case that enabling all American children to achieve their potential requires both expansion of high quality preschool and fundamental changes in how our public elementary schools serve young students Sara Mead Bellwether Education Partners Dr Takanishi has laid out a vision and approach to schooling that is comprehensive forward looking and versed in strong evidence This is must reading for educators leaders policymakers and researchers Arthur Reynolds University of Minnesota

Exploring Early Childhood Care and Education Levers to Improve Population Health National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Roundtable on Population Health Improvement, 2019-03-15 On September 14 2017 the Roundtable on Population Health Improvement of the National Academies of Sciences Engineering and Medicine convened a workshop to explore the intersection of health and early childhood care and education two key social determinants of health This workshop follows a 2014 roundtable workshop that considered the interface between the education and health sectors broadly from research and metrics to cross sectoral partnerships and financing The 2017 workshop continued that discussion with a deeper focus on early childhood birth through age 5 as a critical period in human development and an important opportunity for educational and related interventions This publication summarizes the presentations and discussions from the 2017 workshop
