Impossible Heights Adnan Morshed, 2015-01-15 The advent of the airplane and skyscraper in 1920s and 30s America offered the population an entirely new way to look at the world from above The captivating image of an airplane flying over the rising metropolis led many Americans to believe a new civilization had dawned In **Impossible Heights** Adnan Morshed examines the aesthetics that emerged from this valorization of heights and their impact on the built environment The lofty vantage point from the sky ushered in a modernist impulse to cleanse crowded twentieth century cities in anticipation of an ideal world of tomorrow Inspired by great new heights American architects became central to this endeavor and were regarded as heroic aviators Combining close readings of a broad range of archival sources Morshed offers new interpretations of works such as Hugh Ferriss's *Metropolis* drawings Buckminster Fuller's *Dymaxion* houses and Norman Bel Geddes's *Futurama* exhibit at the 1939 New York World's Fair Transformed by the populist imagination into master builders these designers helped produce a new form of visuality the aesthetics of ascension By demonstrating how aerial movement and height intersect with popular superman discourses of the time Morshed reveals the relationship between architecture art science and interwar pop culture Featuring a marvelous array of never before published illustrations this richly textured study of utopian imaginings illustrates America's propulsion into a new cultural consciousness **The Triumph of Liberty**

Jim Powell, 2000 A dramatic narrative history of liberty from ancient times to the present is told through the inspiring life stories of 65 heroes and heroines from the crisis of the Roman Republic to struggles for women's rights 1 **The Nation**

and Athenæum, 1929 **Unveiling the Dynamics Behind the Holocaust in Hungary** Moshe Barides, 2025-08-04 The Holocaust in Hungary was characterized by the collaboration between the Hungarian government and the German occupiers It resulted in the systematic murder of a significant portion of Hungary's Jewish population primarily during a short period between May and July 1944 This destruction represents one of the most perplexing chapters in Holocaust history The book argues that it was primarily orchestrated by one man Adolf Eichmann influenced by four key factors Nazi ideology Hungarian antisemitism and collaboration the compliance of the Jewish Council and the passive role of influential figures like Franklin D Roosevelt The book further argues that Rudolf Kasztner and the Jewish Council acted mainly out of fear Their compliance

significantly shaped Eichmann's decisions and enabled him to rely on Hungarian help to gather victims. Bystanders too not only failed to save Jews despite options available but also influenced Eichmann's actions. Incorporating a novel analytical framework for analyzing risk factors and triggers for genocide and highlighting bystander responsibilities, Moshe Barides proposes new terminology to help prevent future atrocities. *The New Hungarian Quarterly* Iván Boldizsár, 1990 *NHQ; the New Hungarian Quarterly*, 1990

Wagner's Theatre Patrick Carnegy, 2024-01-01 In *Wagner's Theatre* Patrick Carnegy presents the turbulent story of Wagner and his interpreters over the course of the twentieth century. Carnegy gives vivid accounts of Gustav Mahler's radical reinvention of the Wagnerian stage and of the post-war rehabilitation of Wagner and his work after Hitler's appropriation. He also offers sharply written reappraisals of those great Wagnerian conductors: Klemperer, Toscanini, Karajan, and Solti. Carnegy provides revealing accounts of the inside workings of the Royal Opera House and of English National Opera at troubled points in their recent history. In a fascinating conversation with Sir Michael Tippett, the composer talks with unique authority about the problems facing would-be musical dramatists today. *Wagner's Theatre* is an essential insight into how interpretations of Wagner have developed and how we can respond to them. *The Spectator*, 1928
