[Titan](#) William R. Nester, 2016-05-31 When the leaders of the French Revolution executed Louis XVI and Marie Antoinette in 1793 they sent a chilling message to the hereditary ruling orders in Europe Believing that monarchy anywhere presented a threat to democratic rule in France the leaders of the revolution declared war on European aristocracies including those of Great Britain For more than twenty years thereafter France and England waged a protracted war that ended in British victory In Titan William R Nester offers a deeply informed and thoroughly fascinating narrative of how England accomplished this remarkable feat Between 1789 and 1815 British leaders devised funded and led seven coalitions against the

revolutionary and Napoleonic governments of France In each enterprise statesmen and generals searched for order amid a complex welter of bureaucratic political economic psychological technological and international forces Nester combines biographies of great men the likes of William Pitt Horatio Nelson and Arthur Wellesley with an explanation of the critical decisions they made in Britain s struggle for power and his own keen analysis of the forces that operated beyond their control Their efforts would eventually crush France and Napoleon and establish a system of European power relations that prevented a world war for nearly a century The interplay of individuals and events the importance of conjunctures and contingency the significance of Britain s island character and resources all come into play in Nester s exploration of the art of British military diplomacy The result is a comprehensive and insightful account of the endeavors of statesmen and generals to master the art of power in a complex battle for empire
