The Theatre of the Real Gina Masucci MacKenzie, 2008 The Theatre of the Real Yeats Beckett and Sondheim traces the thread of jouissance the simultaneous experience of radical pleasure and pain through three major theatre figures of the twentieth century Gina Masucci MacKenzie's work engages theatrical text and performance in dialogue with the Lacanian Real so as to re envision modern theatre as the cultural site where author actor and audience come into direct contact with personal and collective traumas By showing how a transgressively free subject may be formed through theatrical experience MacKenzie concludes that modern theatre can liberate the individual from the socially constructed self The Theatre of the Real revises views of modern theatre by demonstrating how it can lead to a collaborative effort required for innovative theatrical work By foregrounding Yeats's dancer plays the author shows how these intimate pieces contribute to the historical development of musical as well as modern theatre Beckett's universal dramas then pave the way for Sondheim's postmodern cacophonies of idea and spirit as they introduce comic abjection into modernism's tragic mode This exciting work from a new author will leave readers with fresh insight to theatrical performance and its necessity in our lives
