Theologies Of Creation Creatio Ex Nihilo And Its New Rivals:

Theologies of Creation Thomas Jay Oord, 2014-10-02 Humans have long wondered about the origin of the universe And such questions are especially alive today as physicists offer metaphysical theories to account for the emergence of creation Theists have attributed the universe s origin to divine activity and many have said God created something from absolute nothingness The venerable doctrine of creatio ex nihilo especially emphasizes God s initial creating activity Some contributors to this book explore new reasons creatio ex nihilo should continue to be embraced today But other contributors question the viability of creation from nothing and offer alternative initial creation options in its place These new alternatives explore a variety of options in light of recent scientific work new biblical scholarship and both new and old theological traditions

Pluriform Love Thomas Jay Oord, 2022-02-25 A masterpiece from the preeminent theologian of love A strong case can be made that love is the core of Christian faith And yet Christians often fail to give love center stage in biblical studies and theology And most fail to explain what they mean by love Why is this Thomas Jay Oord explores this question and offers ground breaking answers Oord addresses leading Christian thinkers today and of yesteryear He explains biblical forms of love such as agape philia hesed and ahavah We should understand love s meaning as uniform he says but its expressions are pluriform Widely regarded as the world s foremost theologian of love Thomas Jay Oord tackles our biggest puzzles about the nature and meaning of love divine and creaturely His proposals are novel They align with love described in scripture and expressed in everyday experience Oord also provides radical and yet persuasive answers to questions about evil hell the Big Bang divine violence divine abandonment and more Pluriform Love changes the landscape of Christian love studies What they re saying Thomas Jay Oord is the first to systematically clarify a variety of types of love and show that all are characteristic of God This is an original contribution to theology Though a complex task Oord writes in an accessible and attractive way John B Cobb Jr Cobb Institute Author of Salvation Jesus s Mission and Ours Christian theology in the years to come will need a facelift a true restoration of the biblical witness to the centrality of God s love If we wish to help make the faith truly relatable to our world today Oord s clear compassionate and compelling voice is one we will be thankful for Peter Enns Eastern University and Co host of The Bible for Normal People Thomas Jay Oord adds to his proposals on open and relational theology developing a theology of love which is both uniform in meaning and pluriform according to situation and recipients The volume is indispensable for those researching the nature of love Paul Fiddes University of Oxford The glowing multiform forcefield of love embraces every sentence of Pluriform Love Free of sentimentality and pretense refusing to pit eros and agape against each other it unfolds a full scale theology This amorous vision will attract a wide readership Catherine Keller Drew University Author of Facing Apocalypse Thomas Oord is a global leader exploring the primacy of love within Christian thought and practice In this book he presents a theology of love in a loving way When he grapples with the Scriptures he shows an attitude of fairness His writing style combines scholarly depth with accessible simplicity In the end Oord makes a radical claim much of traditional Christian theology cannot take love as seriously as it must Love must revolutionize Christian theology and Oord explains how Brian D McLaren Author of Do I Stay Christian This is a rigorous provocative creative and very readable account of the meaning of love especially divine love It s a very important contribution to theological thought on this central topic Keith Ward University of Oxford

Monotheism and the Suffering of Animals in Nature Christopher Southgate, 2023-07-06 This Element concerns itself with a particular aspect of the problem posed to monotheistic religious thought by suffering namely the suffering of non human

creatures in nature It makes some comparisons between Judaism Christianity and Islam and then explores the problem in depth within Christian thought After clarification of the nature of the problem the Element considers a range of possible responses including those based on a fall event those based on freedom of process and those hypothesising a constraint on the possibilities for God as creator Proposals based on the motif of self emptying are evaluated Two other aspects of the question concern God's providential relationship to the evolving creation and the possibility of resurrection lives for animals After consideration of the possibility of combining different explanations the Element ends its discussion by looking at two innovative proposals at the cutting edge of the debate **The Uncontrolling Love of God** Thomas Jay Oord, 2015-11-09

Rarely does a new theological position emerge to account well for life in the world including not only goodness and beauty but also tragedy and randomness Drawing from Scripture science philosophy and various theological traditions Thomas Jay Oord offers a novel theology of providence essential kenosis that emphasizes God's inherently noncoercive love in relation to creation **Creatio Ex Nihilo** Gerhard May, 2004-07-09 A unique study challenging the assumption that the doctrine of creation out of nothing was inherited by Christianity along with the Jewish scriptures which the Church adopted

Creation Out of Nothing Paul Copan, William Lane Craig, 2004-06 Addresses the biblical philosophical and scientific bases for the doctrine of creation out of nothing while countering contemporary trends that are assailing this doctrine

Creation ex nihilo Gary A. Anderson, Markus Bockmuehl, 2017-11-15 The phrase creation ex nihilo refers to the primarily Christian notion of God's creation of everything from nothing Creation ex nihilo Origins Development Contemporary Challenges presents the findings of a joint research project at Oxford University and the University of Notre Dame in 2014 2015 The doctrine of creation ex nihilo has met with criticism and revisionary theories in recent years from the worlds of science theology and philosophy This volume concentrates on several key areas the relationship of the doctrine to its purported biblical sources how the doctrine emerged in the first several centuries of the Common Era why the doctrine came under heavy criticism in the modern era how some theologians have responded to the objections and the relationship of the doctrine to claims of modern science for example the fundamental law of physics that matter cannot be created from nothing Although the Bible never expressly states that God made everything from nothing various texts are taken to imply that the universe came into existence by divine command and was not assembled from preexisting matter or energy The contributors to this volume approach this topic from a range of perspectives from exposition to defense of the doctrine itself This is a unique and fascinating work whose aim is to present the reader with a compelling set of arguments for why the doctrine should remain central to the grammar of contemporary Christian theology As such the book will appeal to theologians as well as those interested in the relationship between theology and science Contributors Gary A Anderson Markus Bockmuehl Janet Soskice Richard J Clifford S J Sean M McDonough Gregory E Sterling Khaled Anatolios John C Cavadini Joseph Wawrykow Tzvi Novick Daniel Davies Cyril O Regan Ruth Jackson David Bentley Hart Adam D Hincks S J

Andrew Pinsent and Andrew Davison **Creation and Double Chaos** Sjoerd Lieuwe Bonting,2004-12-01 Scientist and theologian Sjoerd Bonting offers a new overarching framework for thinking about issues in religion and science He looks at the creation controversy itself including biblical perspectives traditional doctrines and the particular potential contribution of chaos theory Finally Bonting extends this perspective a combination of chaos theory and chaos theology he calls double chaos into a framework that addresses traditional questions about evil divine agency soteriology the understanding of disease possible extraterrestrial life and the future **A Coalesced Creation** Jenna N. Erickson,2009 **Creation and New Creation** Sean M McDonough,2016-04-01 In keeping with the Scriptural witness and the theological heritage this remarkable book examines the doctrine of creation alongside new creation The connection between the two creation and new creation has drawn renewed attention in the last several decades but the burden of Sean McDonough s argument is that this emphasis on creation and new creation has been a feature of the doctrine since the beginning whether in the eschatological reading of Genesis 1 that predominated at least until early modern times or the intertwining of the narratives of creation and redemption in thinkers from Irenaeus to Barth Whilst covering the traditional elements of the doctrine McDonough treats the important subject with a special emphasis on how these unfold in the story of what Gunton has called God s creation project

Creation "Ex Nihilo" and Modern Theology Janet Soskice,2013-05-28 This is a fresh and modern look at the concept of creatio ex nihilo with 12 essays by leading scholars from around the world Discusses the theological implications of ex nihilo and its place in modern theology Examines the historiography of creation ex nihilo with particular attention to the views of Aquinas Dante Luther Merleau Ponty and Bulgakov Delves into topics as varied as prayer providence beauty divine presence our relation to other creatures freedom and grace **Creation** Edward W. H. Vick,2012-07-06 Christian discussions of creation or origins typically start with one of the standard positions on this contentious doctrine and then presents the arguments in favor of that position In this book Edward W H Vick looks at creation as a matter of systematic theology What does it mean for a doctrine to be called Christian How does one derive and express a doctrine of creation that is truly Christian in content He starts by distinguishing biblical theology the topic of companion volume *Creation in Scripture* by Herold Weiss from the systematic theology approach used in this book This book is divided into three parts Each has its own style and function The first presents an introductory statement about how we approach a doctrinal explanation of the theme of Creation Then we give a theological account of the meaning of the assertion that God is Creator The second presents statements by representative respected theologians as they expound the theme and argue for a separation of theology from science It presents some quite basic positions The third is in the form of a conversation an effective way of introducing differing points of view pro and con Finally the book includes a series of questions for each chapter making it useful as a basis for group study and discussion This book will provide a solid theological foundation for further study of origins in the context of Christian faith *Creationism and the Conflict over Evolution* Tatha Wiley,2009-01-01 How do our

current notions of the workings of the universe fit with our deepest convictions about its meaning and value From religion we grasp the world as created given gift From science we apprehend it as evolving in process changing How do we bring these apprehensions together Or can we Is our impulse to find the two complementary creation and evolution Or is it to find them contradictory creation or evolution The way in which we answer these questions carries personal and intellectual consequences It will constitute the first piece in a worldview within which we order our religious beliefs and scientific judgments from the Preface

The Doctrine of Creatio Ex Nihilo and Natural Theology in the Thought of Thomas Aquinas Yonghua Ge, 2011 This study investigates Thomas Aquinas's thought on the doctrine of creatio ex nihilo and its implications for natural theology Although the doctrine is accepted on the basis of revelation Aquinas believes that nearly all the aspects of the doctrine can be demonstrated by reason In his treatment of creatio ex nihilo Aquinas indeed uses reason alone to demonstrate that everything other than God is created by God out of nothing In this sense Aquinas's exposition of creatio ex nihilo is a paradigm of natural theology of which he is usually seen as a great champion In fact as this study will show Aquinas's natural theology is deeply informed by his understanding of creatio ex nihilo Natural theology is possible and legitimate because the world is created On the one hand creatio ex nihilo signifies that the existence of all creatures is anchored in a two fold relation to God dependence on God and participation in God The ontological link between creatures and God makes it possible for us to know something about God through creatures which is the ontological foundation for natural theology On the other hand creatio ex nihilo provides the epistemological foundation for natural theology It underscores an epistemological gap between God and the human mind God's essence is incomprehensible to us In this life we can know God only through His effects All theology natural or revealed is in essence an indirect quest for the knowledge of God via created things Natural theology as part of the human endeavor to know God indirectly is therefore as legitimate as revealed theology Natural theology is not to be abrogated but to be presupposed and perfected by revealed theology as nature is presupposed and perfected by grace Abstract

How Early is the Doctrine of Creatio Ex Nihilo? ,2002

Creation Ex Nihilo Maxwell R Shimba, 2024-08-19 *Creation Ex Nihilo* by Dr Maxwell Shimba is a profound exploration of the theological doctrine that posits God as the creator of the universe out of nothing This book delves into the historical philosophical and theological foundations of this belief offering readers a comprehensive understanding of how it has shaped religious thought throughout the centuries Dr Shimba meticulously examines the roots of Creation Ex Nihilo in ancient religious texts particularly within the Judeo Christian tradition and traces its development through the writings of early Church Fathers medieval scholars and modern theologians The book is divided into several sections each addressing a different aspect of the doctrine In the opening chapters Dr Shimba provides an in depth analysis of the biblical foundations of Creation Ex Nihilo focusing on key passages from the Old and New Testaments He argues that the idea of creation out of nothing is not just a theological construct but is deeply embedded in the scriptural narrative reflecting the profound

relationship between God and creation This section also highlights how this doctrine underscores God s omnipotence and sovereignty reinforcing the belief that the universe exists solely because of God s will Dr Shimba then transitions into a philosophical exploration of the doctrine engaging with classical and contemporary philosophical debates about existence causality and the nature of nothingness He contrasts Creation Ex Nihilo with other creation theories such as creation ex materia creation out of pre existing material and examines the implications of each for our understanding of God and the universe Through this philosophical lens the book explores how Creation Ex Nihilo provides a coherent explanation for the origins of the universe and addresses some of the most challenging metaphysical questions about the nature of being and non being One of the book s strengths is its interdisciplinary approach as Dr Shimba also engages with scientific perspectives on the origins of the universe He discusses how modern cosmology particularly the Big Bang Theory intersects with and sometimes challenges traditional theological views on creation However rather than seeing science and theology as opposing forces Dr Shimba advocates for a dialogue between the two suggesting that both can offer valuable insights into the mystery of creation This section of the book is particularly relevant for readers interested in the relationship between science and religion Throughout Creation Ex Nihilo Dr Shimba also addresses the ethical and existential implications of the doctrine He explores how the belief in a created universe influences our understanding of human dignity moral responsibility and the meaning of life By affirming that the universe and humanity were brought into existence with purpose the doctrine provides a foundation for ethical behavior and a sense of purpose that transcends individual existence Dr Shimba argues that this understanding of creation can inspire a more profound respect for life and the environment encouraging a more responsible stewardship of the world In conclusion Creation Ex Nihilo by Dr Maxwell Shimba is a thorough and thought provoking examination of one of the most significant doctrines in Christian theology It offers readers a detailed exploration of the historical philosophical and scientific dimensions of the doctrine while also reflecting on its implications for faith reason and ethics Dr Shimba s work is a valuable contribution to contemporary theological discourse providing a rich resource for scholars students and anyone interested in the intersection of religion philosophy and science Creation Unfolding Ken P Coulson,2020-02-07 Christian non fiction
