The Worldmakers Global Imagining In Early Modern Europe:

The Worldmakers Ayesha Ramachandran,2015-10-13 Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists philosophers and writers to make sense of something that we take for granted the world imagined as a whole The Worldmakers moves beyond histories of globalisation to explore how the world itself variously understood as an object of inquiry a comprehensive category and a system of order was self consciously shaped by human agents **Persian Paradigms in Early Modern English Drama** Sheiba Kian Kaufman,2025-10-31 Persian Paradigms in Early Modern English Drama examines the concept of early modern globality and the development of European toleration discourse through English representations of Persian monarchs and Persianate conceptions of hospitality as paradigms of interreligious and intercultural hospitality for early modern and Shakespearean drama English playwrights depict Persia and its legendary monarchs such as Cyrus the Great Xerxes and Darius as alternative figures of cosmopolitanism in the period By focusing on an archive of plays of Persia staged between 1561 and 1696 in conversation with Shakespeare s works European peace proposals legislative acts of toleration and global traditions of hospitality found in Zoroastrianism Islam and the Judeo Christian traditions this book pioneers an interdisciplinary methodology introduces Persianate conceptual lenses for literary analysis of English literature and constructs capacities to imagine multiple globalities existing in early modernity through a spectrum of imagined and lived experiences on stage and on the ground **Europe in the World from 1350 to 1650** Rila Mukherjee,2025-08-23 This book covers both European and global History from 1350 to 1650 The eight modules in the textbook offer an all encompassing perspective on European history and a parallel understanding of world history establishing a holistic framework of the events narrated It provides a conceptual framework for understanding the factors that led to the rise of the modern West The textbook offers maps tables and illustrations to quickly comprehend and recollect significant events and their causes and consequences in Europe s transformation from medieval to modern maps The textbook covers political economic intellectual and social history from 1350 to 1650 Each module carries suggested questions and exercises to achieve greater interactive learning The textbook serves as a convenient source of information for advanced readers and upper undergraduates in history to understand the genesis of modern Europe from multiple sources perspectives and languages [The Cambridge History of European Romantic Literature](#) Patrick Vincent,2023-11-09 Examining Romanticism s pan European circulation of people ideas and texts this history re analyses the period and Britain s place in it *World-Making Renaissance Women* Pamela S. Hammons,Brandie R. Siegfried,2021-12-02 This collection affirms the shaping authority of early modern women in literature and culture evident well beyond their own moment **Impossible Desire and the Limits of Knowledge in Renaissance Poetry** Wendy Beth Hyman,2019-04-04 Impossible Desire and the Limits of Knowledge in Renaissance Poetry examines the limits of embodiment knowledge and representation at a disregarded nexus the erotic carpe diem poem in early modern England These macabre seductions offer no compliments or

promises but instead focus on the lovers anticipated decline and quite stunningly given the Reformation context humanity's relegation not to a Christian afterlife but to a Marvellian desert of vast Eternity In this way a poetic trope whose classical form was an expression of pragmatic Epicureanism became during the religious upheaval of the Reformation an unlikely but effective vehicle for articulating religious doubt Its ambitions were thus largely philosophical and came to incorporate investigations into the nature of matter time and poetic representation Renaissance seduction poets invited their auditors to participate in a dangerous intellectual game one whose primary interest was expanding the limits of knowledge The book theorizes how Renaissance lyric's own fragile relationship to materiality and time and its self-conscious relationship to making positioned it to grapple with these impossible metaphysical and representational problems Although attentive to poetics the book also challenges the commonplace view that the erotic invitation is exclusively a lyrical mode Carpe diem's revival in post-Reformation Europe portends its radicalization as debates between man and maid are dramatized in disputes between abstractions like chastity and material facts like death Offered here is thus a theoretical reconsideration of the generic parameters and aspirations of the carpe diem trope wherein questions about embodiment and knowledge are also investigations into the potentialities of literary form

New Worlds Reflected Chloë Houston, 2016-05-06 Utopias have long interested scholars of the intellectual and literary history of the early modern period From the time of Thomas More's *Utopia* (1516) fictional utopias were indebted to contemporary travel narratives with which they shared interests in physical and metaphorical journeys processes of exploration and discovery encounters with new peoples and exchange between cultures Travel writers too turned to utopian discourses to describe the new worlds and societies they encountered Both utopia and travel writing came to involve a process of reflection upon their authors' societies and cultures as well as representations of new and different worlds As awareness of early modern encounters with new worlds moves beyond the Atlantic World to consider exploration and travel piracy and cultural exchange throughout the globe an assessment of the mutual indebtedness of these genres as well as an introduction to their development is needed *New Worlds Reflected* provides a significant contribution both to the history of utopian literature and travel and to the wider cultural and intellectual history of the time assembling original essays from scholars interested in representations of the globe and new and ideal worlds in the period from the sixteenth to eighteenth centuries and in the imaginative reciprocal responsiveness of utopian and travel writing Together these essays underline the mutual indebtedness of travel and utopia in the early modern period and highlight the rich variety of ways in which writers made use of the prospect of new and ideal worlds *New Worlds Reflected* showcases new work in the fields of early modern utopian and global

studies and will appeal to all scholars interested in such questions
