_____BEGINNINGS Terrorists kidnap and blackmail a young French scientist in Western Africa The outbreak of an ancient disease kills everyone in a village located in a remote jungle of Guatemala U S government operatives uncover a secret biological laboratory in Trinidad An isolated death at the hands of this killer virus is discovered in Greece Is there a connection or are these simply a string of coincidences Dr Mackenzie Hagan a highly educated well respected epidemiologist at the CDC Atlanta is called to Guatemala As the daughter of a retired Commanding General of the United States Army Medical Research Institute of Infectious Diseases Mac often says infectious disease is in her blood While no infectious disease outbreak is routine this particular hot zone in Guatemala has its own set of complications including a mysterious operative sent there by the Department of Defense Events unfold and Mac is sent around the world investigating new cases involving this same rare disease Nathan Hunter a covert operative within an off the books project for the DOD tracks down terrorists before they strike As Hunter unravels a villainous plot with tentacles

spanning the globe his investigative path crosses with Mac's Was it fate or something else Mac and Hunter work together to analyze the disease and to identify the source But they soon learn that the biggest challenge they'll face is right at home a government bureaucracy unwilling to sound the alarm to protect the nation As the disease spreads and the crisis escalates an army lurks in the shadows one blessed by Allah and prepared to wage the Final Jihad This series will be frighteningly realistic It is not intended to scare the wits out of you but it might just scare the wits into you Remember it could take just one cough one kiss or one touch to change not only your life but the lives of everyone around you forever This is an ingenious inventive thriller about the threats we face from a global pandemic and the use of infectious diseases by terrorists as they wage jihad around the world Drawing on his unique talent to place the reader in a post apocalyptic world Bobby Akart delivers an explosive page turner that has you wondering will there be a last patient Note The Pandemic Series does not contain strong language It is intended to entertain and inform audiences of all ages including teen and young adults Although some scenes depict the realistic threat our nation faces from a worldwide pandemic and the societal collapse which will result in the aftermath it does not contain graphic scenes typical of other books in the post apocalyptic genre I believe more of our young people need to lead a preparedness lifestyle Studies show that our millennials do not have any of the basic survival skills By writing this series free of vulgarities and gratuitous sexual innuendo I've intended it to be suitable for everyone Thanks
