Voices Of Freedom A Documentary History Third Edition Vol 2:

Voices of Freedom Eric Foner, 2010 The Third Edition of *Voices of Freedom* includes documents reflecting the global dimension of American history and remains a comprehensive collection that offers a diverse gathering of authors and a wide breadth of opinion

The Political Life of Bella Abzug, 1976-1998 Alan H. Levy, 2013-12-05 The *Political Life of Bella Abzug 1976-1998* is the second part of the first full biography of Bella Abzug Alan H Levy explores the political life of one of the most important women in politics in mid and late twentieth century America This second part takes up Abzug's life from the point in 1976 when she narrowly lost her bid for the New York Democratic Party's nomination for the U S Senate The biography follows her subsequent failed effort to win the Democratic Party's nomination for Mayor of New York City in 1977 her leading a controversial National Women's Convention in Houston in late 1977 her failed attempt to return to the U S Congress in 1978 and her conflicts with President Jimmy Carter and his administration The biography then traces the efforts in which Abzug was engaged to regain political prominence and her work on behalf of women at both national and international levels Through the events in Abzug's life Levy explores tensions that surrounded the contrasts between political principles which idealized a world in which gender posed no barriers to any human effort and political views which sought to extol and develop notions of gender and of ideas about its special meanings in human affairs and politics

The Impossible Presidency Jeremi Suri, 2017-09-12 A bold new history of the American presidency arguing that the successful presidents of the past created unrealistic expectations for every president since JFK with enormously problematic implications for American politics In *The Impossible Presidency* celebrated historian Jeremi Suri charts the rise and fall of the American presidency from the limited role envisaged by the Founding Fathers to its current status as the most powerful job in the world He argues that the presidency is a victim of its own success the vastness of the job makes it almost impossible to fulfill the expectations placed upon it As managers of the world's largest economy and military contemporary presidents must react to a truly globalized world in a twenty four hour news cycle There is little room left for bold vision Suri traces America's disenchantment with our recent presidents to the inevitable mismatch between presidential promises and the structural limitations of the office A masterful reassessment of presidential history this book is essential reading for anyone trying to understand America's fraught political climate
