The Philosophy of Curatorial Practice Sue Spaid, 2020-10-15 This book walks us through the process of how artworks eventually get their meaning showing us how curated exhibitions invite audience members to weave an exhibition's narrative threads which gives artworks their contents and discursive sense Arguing that exhibitions avail artworks as candidates for reception whose meaning value and relevance reflect audience responses it challenges the existing view that exhibitions present already validated candidates for appreciation Instead this book stresses the collaborative nature of curatorial practices debunking the twin myths of autonomous artists and sovereign artistic directors and treating presentation and reception as separate processes Employing set theory to distinguish curated exhibitions from uncurated exhibitions installation art and collections it demonstrates how exhibitions grant spectators access to concepts that aid their capacity to grasp artifacts as artworks To inform and illuminate current debates in curatorial practice Spaid draws on a range of case studies from Impressionism Dada and Surrealism to more contemporary exhibitions such as Maurizio Cattelan All 2011 and Damien Hirst 2012 In articulating the process that cycles through exploration interpretation presentation and reception curating bears resemblance to artistic direction more generally

W. K. Clifford and "The Ethics of Belief" Timothy Madigan, 2008-12-18 W K Clifford 1845-1879 was a noted mathematician and popularizer of science in the Victorian era Although he made major contributions in the field of geometry he is perhaps best known for a short essay he wrote in 1876 entitled *The Ethics of Belief* in which he argued that It is wrong always everywhere and for any one to believe anything upon insufficient evidence Delivered initially as an address to the august Metaphysical Society whose members included such luminaries as Alfred Lord Tennyson William Gladstone T H Huxley and assorted scientists clerics and philosophers of differing metaphysical views *The Ethics of Belief* became a rallying cry for freethinkers and a bone of contention for religious apologists It continues to be discussed today as an exemplar of what is called evidentialism a key point in current philosophy of religion debates over justification of knowledge claims In this book Timothy J Madigan examines the continuing relevance of *The Ethics of Belief* to epistemological and ethical concerns He places the essay within the historical context especially the so called Victorian Crisis of Faith of which Clifford was a key player Clifford's own life and interests are dealt with as well along with the responses to his essay by his contemporaries the most famous of which was William James's *The Will to Believe* Madigan provides an overview of modern day critics of Cliffordian evidentialism as well as examining thinkers who

were positively influenced by him including Bertrand Russell who was perhaps Clifford's most influential successor as an advocate of intellectual honesty The book ends with a defense of The Ethics of Belief from a virtue theory approach and argues that Clifford utilizes an as if methodology to encourage intellectual inquiry and communal truth seeking The Ethics of Belief continues to provoke and stimulate controversy which was perhaps Clifford's own fondest hope although he had no right to believe it would do so

Theological Method Graham A. Cole, 2025-04-01 How to Be Certain That Your Understanding of God Reflects the Truth of Scripture If we want to know the truth about God we need a sound approach to incorporating what the whole Bible teaches In this concise introduction to systematic theology theologian Graham A Cole explores how we move from Scripture to doctrine in order to shape what we believe what we value and how we live He shows us the importance of having the right method rooted in the word of God consistent with church history in the context of a broken world dependent on divine wisdom and ultimately aiming at pure worship The first volume in the Short Studies in Systematic Theology series this book explores what it means to do theology why theology matters and what it looks like to derive doctrine from God's word helping us understand what to believe what to value and how to live Each chapter looks at 1 of 5 crucial components for constructing good theology revelation from God tradition from the past worship wisdom and experience of brokenness with case studies illustrating how doctrine is developed from each of these important sources Readers will be left with a deeper understanding of how to make sure their theology faithfully reflects the truth of God's word

5 Crucial Elements of Constructing Good Theology Explores revelation from God tradition from the past worship wisdom and experience of brokenness Practical Explains how to move from Scripture to doctrine Accessible Uses case studies to demonstrate the importance and elements of good theology Replaces ISBN 978 1 4335 5911 2 Formerly titled Faithful Theology

Ethics after Anscombe D.J. Richter, 2013-03-09 How if at all can we do moral philosophy in the light of the radical critique made by Elizabeth Anscombe in Modern Moral Philosophy Among the principal theses of this essay is that ethical thinking that of philosophers and others suffers from a widespread appeal to incoherent uses of terms such as obligation ought right and wrong In this book I first explain and evaluate her thesis and the argument for it and I then confront the challenge it poses what ways are there of doing moral philosophy that avoid the kind of incoherence to which she has drawn our attention The best way to show how it is possible for us to think about ethics is to demonstrate how to do so using actual cases This book therefore combines the critical study of central theoretical issues about ethics in the first half with concrete examination of serious practical issues in the second Following Dostoyevsky's Ivan Karamazov it is often said that if God does not exist then everything is permitted This is not literally the case since God cannot permit anything if He does not exist and those of us who do exist do not permit everything or at least our parents employers and governments do not It is true though that if God does not exist then nothing is forbidden in the traditional sense of forbidden
