Selected List of Dutch Books Recommended for Libraries Martinus Nijhoff Publishers, 1913 *The Reach of the Republic of Letters: Literary and Learned Societies in Late Medieval and Early Modern Europe (2 Vols.)*, 2008-08-31 Present day scholarship holds that the Italian academies were the model for the European literary and learned society This volume questions the Italian paradigm and discusses the literary and learned associations in Italy and Spain explicitly called academies as well as others in Germany France and the Netherlands The flourishing of these organizations from the fifteenth century onwards coincided chronologically with the growth of performative literary culture the technological innovation of the printing press the establishment of early humanist networks and the growing impact of classical and humanist ideas concepts and forms on vernacular culture One of the questions this volume raises is whether and how these societies related to these developments and to the world of Learning and the Republic of Letters **Germanic and its Dialects**, 1977-12-31 Germanists have long lamented the lack of comprehensive bibliographies of past and present literature particularly in the areas of Frisian Old English Old High German and most notably Old Saxon The compilers of this bibliography deem it crucial to fill this lacuna before embarking on two further volumes project to complete this series I Texts and II Maps and Commentaries NOTE FROM THE PUBLISHER The publication of the two further volumes I Texts II Maps and Commentaries has been canceled **Vlaanderen door de eeuwen heen**, 1951 Writing and Rewriting National Theatre Histories S.E. Wilmer, 2009-11 Historians of theatre face the same temptations and challenges as other historians they negotiate assumptions their own and those of others about national identity and national character they decide what events and actors to highlight or omit and what framework and perspective to use for telling the story Personal biases trends in scholarship and sociopolitical contexts influence all histories and theatre histories too are often revised to reflect changing times and interests This significant collection examines the problems and challenges of formulating national theatre histories The essayists included here leading theatre scholars from all over the world many of whom wrote essays specifically for this volume provide an international context for national theatre histories as well as studies of individual nations They cover a wide geographical area Asia the Middle East Africa Europe and North America The essays contrast large countries India

Indonesia with small Ireland newly independent Slovenia with established U S A developed Canada with developing Mexico South Africa capitalist U S A with formerly communist Russia monolingual Sweden with multilingual Belgium Canada and countries with stable historical boundaries Sweden with those whose borders have shifted Germany The essays also explore such sociopolitical issues as the polarization of language groups the importance of religion the invisibility of ethnic minorities the redrawing of geographical borders changes in ideology and the dismantling of colonial legacies Finally they examine such common problems of history writing as types of evidence periodization canonization styles of narrative and definitions of key terms Writing and Rewriting National Theatre Histories will be of special interest to students and scholars of theatre cultural studies and historiography
