Published in 1984 This is the second volume in a series on musicology and related areas edited by F Joseph Smith Deciphering the specific social characteristics of music has long lagged behind the analytical dissection of musical composition and biographical musicology The essays in this volume have been produced in an attempt to redress the balance The sociology of music as examined here is an investigation into the ways social formations come together in musical

structures These essays specifically address the problem of our neutralized music consciousness the separation of music from the social context and the artificial insulation of musical understanding from the realms of social meanings One theme in these essays concerns the struggle against ideological distortions arising from the insulation of music from its sociological context The author argues that there is a stronger connection between music and society than is generally assumed **Hi Fi/stereo Review** ,1961 **Federal Communications Commission Reports** United States.
