Voting Radical Right In Western Europe:

Voting Radical Right in Western Europe Terri E. Givens, 2005-10-10 Publisher description Immigration and Membership Politics in Western Europe Sara Wallace Goodman, 2014-10-16 Why are traditional nation states newly defining membership and belonging In the twenty first century several Western European states have attached obligatory civic integration requirements as conditions for citizenship and residence which include language proficiency country knowledge and value commitments for immigrants This book examines this membership policy adoption and adaptation through both medium N analysis and three paired comparisons to argue that while there is convergence in instruments there is also significant divergence in policy purpose design and outcomes To explain this variation this book focuses on the continuing dynamic interaction of institutional path dependency and party politics Through paired comparisons of Austria and Denmark Germany and the United Kingdom and the Netherlands and France this book illustrates how variations in these factors as well as a variety of causal processes produce divergent civic integration policy strategies that ultimately preserve and anchor national understandings of membership

Authoritarianism and the Evolution of West European Electoral Politics Erik R. Tillman, 2021-07-22 Authoritarianism and the Evolution of West European Electoral Politics provides a novel explanation of rising Euroscepticism and right wing populism in Western Europe The changing political and cultural environment of recent decades is generating an ongoing realignment of voters structured by authoritarianism which is a psychological disposition towards the maintenance of social cohesion and order at the expense of individual autonomy and diversity High authoritarians find the values and demographic changes of the past several decades a threat to social cohesion which has created an opportunity for PRR parties to gain their support by campaigning against these perceived threats to national community posed by immigration values change and European integration The result is a worldview evolution in which party conflict is shaped by the rival preferences of high and low authoritarians Drawing on national and cross national survey data as well as an original survey experiment this book demonstrates how the relationship between authoritarianism and 1 attitudes towards the EU and 2 voting behaviour has evolved since the 1990s In doing so this book advances these literatures by providing an explanation for why certain voters are shifting towards PRR parties as electoral politics realigns

Friend or enemy? Carolina Gerwin,2019-12-09 Bachelor Thesis from the year 2019 in the subject Communications Media
and Politics Politic Communications grade 7 8 Leiden University language English abstract This thesis examines how the
right wing populist parties AfD and FP are portrayed in the media In 2017 the right wing populist parties Alternative for
Germany AfD and the Austrian Freedom Party FP got markedly different election results While the AfD got 12 6 % of the vote
share the FP achieved a much higher result with 26 % Considering that the two parties as well as Germany and Austria are
ostensibly similar this puzzle leads to the question of what explains the so markedly different election results of the AfD and
the FP in 2017 Based on a review of general factors that explain the success of populist radical right parties and extensive
research on the aspects that led to the rise and success of the AfD and FP the paper focuses on the role of the media seeking
to understand how the two parties were portrayed by the media before the 2017 elections This task is approached by
conducting a qualitative content analysis of the reporting on the AfD by the Bild Zeitung and the depiction of the FP by the
Kronen Zeitung the two most popular online daily newspapers in their countries during the last month before the elections It
is shown that the two parties used different framing strategies to report on the AfD or FP respectively resulting in a much
more negative portrayal of the former Considering that the FP was depicted in a more positive way and got a much higher
result in the election the paper contributes to the literature by supporting the theory that the media have an influence on
election results by shaping the public image of parties and their leaders thereby influencing the voter's perception of them
and offers a relevance point for further research on explaining the varied election results of the AfD and FP in the 2017
elections

in the New Europe Janet Laible,2008-11-15 This book investigates the question of why despite European integration and its
challenges to state sovereignty separatist nationalism continues to thrive in European Union member states Janet Laible
argues that the EU as a context a set of resources and a participatory arena is deeply implicated in the arguments and tactics

of separatists Contrary to those who believe that European integration has reduced the incentives for separatist politics Laible draws on evidence from contemporary Scottish and Flemish nationalism to demonstrate that the EU sustains the importance of statehood and therefore separatism and creates new forms of political capital that nationalists employ in their struggles for self government

European Studies Newsletter, 2005 *Radical Right-Wing Populist Parties in Western Europe* Tjitske Akkerman, Sarah de Lange, Matthijs Rooduijn, 2016-05-18 Radical right wing populist parties such as Geert Wilders Party for Freedom Marine Le Pen s National Front or Nigel Farage s UKIP are becoming increasingly influential in Western European democracies Their electoral support is growing their impact on policy making is substantial and in recent years several radical right wing populist parties have assumed office or supported minority governments Are these developments the cause and or consequence of the mainstreaming of radical right wing populist parties Have radical right wing populist parties expanded their issue profiles moderated their policy positions toned down their anti establishment rhetoric and shed their extreme right reputations to attract more voters and or become coalition partners This timely book answers these questions on the basis of both comparative research and a wide range of case studies covering Austria Belgium Denmark Finland France the Netherlands Norway Switzerland and the United Kingdom Analysing the extent to which radical right wing populist parties have become part of mainstream politics as well as the factors and conditions which facilitate this trend this book is essential reading for students and scholars working in European politics in addition to anyone interested in party politics and current affairs more generally
