High-Performance Coaching for Managers William J. Rothwell, Behnam Bakhshandeh, 2022-07-05 Coaching is a necessary skill for managers It is important as a fundamental part of an organization's talent efforts including talent acquisition development and retention strategies For a coaching program to succeed in an organization it should be recognized as a useful approach throughout the organization and become part of the fabric of the corporate culture Performance Coaching for Managers provides an important tool for organizations to use to train their managers on coaching This book differs significantly from other books in the coaching market Many books on coaching cast coaches as facilitators who question their clients the coachees helping them to articulate their own problems formulate their own solutions develop their own action plans to solve problems and measure the success of efforts to implement those plans That is called a nondirective approach But this book adopts a directive approach by casting the coach as a manager who diagnoses the problems with worker job performance and offers specific advice on how to solve those problems While there is nothing wrong with a nondirective approach it does not always

work well in job performance reviews in which the manager must inform the worker about gaps between what is needed the desired and what is performed the actual The significant difference between what is currently available in the market and what is offered in this book is the authors collective experience of over 70 combined years of hands on research and delivery experiences in the Human Resources Development field According to the Harvard Business Review 2015 workers generally expect their immediate supervisors to give them honest feedback on how well they do their jobs and specific advice on what to do if they are not performing in alignment with organizational expectations When workers do not receive advice but instead are questioned about their own views they regard their managers as either incompetent or disingenuous Effective managers should be able to offer direction to their employees After all managers are responsible for ensuring that their organizational units deliver the results needed by the organization If they fail to do that the organization does not achieve its strategic goals This book gives managers direction in how to offer directive coaching to their workers

Building More Effective Organizations Ronald J. Burke, Cary L. Cooper, 2007-12-13 Organizations today are facing heightened challenges in their efforts to perform effectively These challenges are reflected in the failure of many long standing organizations and the shortened tenure of senior level executives There is increasing agreement that the unique competitive advantage organizations have today lies in their people their human resource management practices and their cultures All other elements of production can be readily obtained bought or copied We are now in the era of human capital to be successful organizations need to unleash the talents of their people Fortunately we now have considerable understanding of what high performing organizations look like However a large gap still exists between what we know and what managers actually do With contributions from a team of leading academics and practitioners Building More Effective Organizations provides an extensive survey of human resource management and the organizational practices associated with the high performance of individuals

The Inclusive, Empathetic, and Relational Supervisor Behnam Bakhshandeh, William J. Rothwell, Aileen G. Zaballero, 2024-06-13 Supervisors are the bridge between line employees and middle upper management Therefore they must effectively communicate across the organization to be responsive and thoughtful leaders With work being more global organizations are taking advantage of remote work and the workforce is now more diverse and decentralized making the workplace more dynamic and complex However diversity can be one of the most controversial and least understood business topics because of the issues regarding quality leadership and ethics Anand uses positivity as a foundational practice to lead and encourage other employees provides guidelines on how to hold employees accountable and set high expectations presents strategies to engage coach and develop employees by creating a positive environment to influence attitudes and behaviors and offers various approaches for managing time and increasing productivity

The Organized and Engaged Supervisor Behnam Bakhshandeh, Aileen G. Zaballero, William J. Rothwell, 2025-06-30 Balancing organization and engagement is the cornerstone of a workplace where supervisors and their teams can genuinely thrive Effective organization

goes beyond checking boxes and meeting quotas it's about creating an environment where clear direction and supportive leadership enable everyone to do their best work Supervisors play a pivotal role in this dynamic navigating their own tasks while guiding their teams and meeting the expectations of clients and higher management The challenge is maintaining this balance managing projects and leading with limited time and resources Success demands more than good intentions it requires strong organizational skills to foster harmony streamline efforts and reduce stress However even the most meticulously organized supervisor can't optimize their teams without veritable engagement Lasting success comes from integrating structure with human connection A great supervisor allocates resources effectively and builds an atmosphere where employees feel valued motivated and genuinely connected to their work This book is your comprehensive guide to mastering this delicate balance Packed with practical insights and proven strategies this book will help elevate your leadership skills and team dynamics creating a culture where productivity and commitment are seamlessly intertwined
