Modern Trends in Human Leukemia III R. Neth, R.C. Gallo, P.-H. Hofschneider, K. Mannweiler, 2012-12-06 Es ist ja ganz einerlei wer es gefunden hat die Hauptsache ist daß es gefunden worden ist This was said by Hermann Wilbrand director of the department of ophthalmology at the university hospital Hamburg Eppendorf 1919 1923 when others claimed priority for the long searched for cortical visual center which he had discovered Five years ago we tried in Wilsede an unusual experiment bringing

together for three long days and nights scientists and medical doctors to learn like students about each others work The hope was that the participants in the workshop would discuss the whole problem of human leukemia and cooperative programmes among the different specialized research groups and medical centers would be stimulated Now five years later we feel that the experiment was a success Cooperative research programmes around the world were started and most of us understand more and more the Frederic Stohlman question about the practical application of our research and its benefit for the patient The chairman have done a tremendous job organizing an up to date scientific programme for the third Wilsede meeting I would like to thank all of them for a programme which includes all the important results and future aspects of human leukemia
