Power Tools Jeanne Dyches, Ashley S. Boyd, Katherine Baker, Alex Kaulfuss, 2023-10-11 Virtually all national standards now require students and teachers to understand the particulars of disciplinary literacy But recently

emerging scholarship suggests that disciplinary literacy is by itself an incomplete and potentially problematic approach to secondary literacy instruction. By asking students to think like or even be like experts, students may receive implicit messaging about whose knowledge is and isn't valued. Critical disciplinary literacy (CDL) creates space for and highlights connections between critical literacies and disciplinary literacies. CDL acknowledges disciplines as unique communities with their own specialized and often exclusionary skills, norms, practices, and discourses but deviates from conventional applications of disciplinary literacy by responding to the ways in which power systems and the analytic skills needed to understand them work differently based on the disciplines at hand. A CDL instructional approach acknowledges that applying the critical literacy skills of reading the word and the world to understand the power dynamics of vaccine distributions requires a different skill set and strategy approach than looking at textual representations of masculinity in *Romeo and Juliet*.

Written by a team of educators with over 70 combined years of classroom experience, *Power Tools: 30 Critical Disciplinary Literacy Strategies for 6-12 Classrooms* offers readers research-based multidisciplinary, ready-to-implement disciplinary literacy strategies from critical literacy lenses. The book sets itself apart from other strategy textbooks by offering creative strategy implementation that calls attention to power systems. Educators can learn, for example, how they might employ read-alouds to explore the global refugee crisis or use the exit ticket strategy to help students reflect on the relationship between race and COVID statistics. *Power Tools: 30 Critical Disciplinary Literacy Strategies for 6-12 Classrooms* provides standards-aligned lessons that both challenge and extend traditional engagement practices to build a more just world. Each chapter includes an overview of each strategy situated within the research of best practices, two disciplinary examples for each CDL strategy (e.g., an example of a CDL think-aloud in seventh-grade math and tenth-grade ELA classroom). Chapters provide resources such as examples of student work, discussion prompts, dialogue between teacher and students, and reprintables. Ideas for addressing resistance to CDL instruction. Preservice and in-service teachers as well as teacher educators and researchers looking to do and support justice-oriented work in disciplinary spaces will find value in the book. *Power Tools* is an ideal text to implement in courses such as Disciplinary Literacy, Secondary Literacy, Content Area Literacy Methods, Strategies for Teaching Social Justice, Multicultural Education, ELA methods, Science methods, Social Studies methods, and Mathematics methods.

Queer Adolescent Literature as a Complement to the English Language Arts Curriculum Paula Greathouse, Brooke Eisenbach, Joan F. Kaywell, 2018-09-22. This text offers 6th-12th grade ELA educators guided instructional approaches for including queer-themed young adult (YA) literature in the English language arts classroom. Chapters are authored by leading researchers and theorists in young adult literature, specifically queer-themed YA. Each chapter spotlights the reading of one queer-themed YA novel and offers pre-, during-, and after-reading activities that guide students to a deeper understanding of the content while increasing their literacy practices. While each chapter focuses on a specific queer-themed YA novel, readers will discover the many opportunities for cross-disciplinary study. **Bridging the**

Gap Lesley Roessing, 2014-07-30 One of the most popular literary genres memoir can provide literary and literacy access to reluctant adolescent readers and writers and help bridge the achievement gap by motivating students to read more critically and write more meaningfully about what matters most to them The introspective nature of memoir helps students learn about themselves and connect with their environment or community while also meeting a variety of Common Core standards In this way memoirs and creative nonfiction can provide a bridge between fiction and nonfiction reading narrative and informative writing reading and writing and can afford a way in to literacy for all adolescents Special features of the book examples of multiple mentor texts in each chapter teacher examples with think aloud exercises a variety of student samples from diverse learners activities to engage all learners an appendix of teacher resources a reference list of over 150 full length memoirs for grades 5-12 for whole class book club or independent reading a list of writing resources for students and teachers 12 full size reproducible materials for teacher and student use a variety of reading writing speaking and listening strategies and activities across disciplines applications and adaptations for diverse learners daily writing focus lessons in gradual release responsibility format Common Core State Standard connections at the end of each chapter *Passing the Special Education TExES Exam* Elaine L. Wilmore, 2013-09-26 Gain confidence lower stress and raise your TExES exam scores In this artful guide TExES test prep veteran Elaine Wilmore breaks down the EC 12 and Supplemental special education test so you can feel calm and confident on test day Built on her successful test prep training seminars she shows how to think like the test was developed and covers Each special education domain and competency Philosophies behind the test questions Teaching stories that improve answer recall Tips for analyzing test questions Ways to use key words and concepts to improve test results Techniques for in state and out of state test takers *Young Adult Literature and the Digital World* Jennifer S. Dail, Shelbie Witte, Steven T. Bickmore, 2018-04-26 This book considers the practical intersection between digital media and young adult texts In these books teachers and teacher educators offer practical examples for engaging students with crafting critical responses to young adult literature through digital spaces It examines how teachers can use these spaces to help students encounter evaluate and engage in the world in which they live Young adult literature offers a vehicle through which students can discuss and explore the world in a more removed manner while digital media offers a paradigm for helping students craft multimodal responses that extend beyond the traditional literary essay This intersection asks teachers to consider how they are asking students to interact with the texts they read It asks them to invite students to enter and contribute to broader conversations through the production of their own texts This book illustrates pedagogical principles in practice showing what is possible in literature study in classrooms
