Transcending Self-interest Heidi A. Wayment, Jack J. Bauer, 2008 For decades social scientists have observed that Americans are becoming more selfish headstrong and callous Instead of lamenting a cultural slide toward narcissism *Transcending Self Interest Psychological Explorations of the Quiet Ego* provides a constructive framework for understanding and conducting research on both the problems of egocentrism and the ways of transcending it Heidi A Wayment and Jack J Bauer have assembled a group of contributors who are helping to reshape how the field of psychology defines the self in the 21st century In the spirit of positive psychology these authors call us to move beyond individualistic and pathological notions of self versus other Their theories and research suggest two paths to this transcendence a balancing the needs of self and others in one s everyday life and b developing compassion nondefensive self awareness and interdependent self identity At the end of these converging paths lies a quiet ego an ego less concerned with self promotion than with the flourishing of both the self and others Readers will find in this volume inspiration not only for future work in psychology but also for their own efforts toward personal development Jacket PsycINFO Database Record c 2008 APA all rights reserved *The Oxford Handbook of Hypo-egoic Phenomena* Kirk Warren Brown, Mark R. Robinson, Michael Eid, 2017-06-28 This edited volume focuses on different views of happiness and well being considering constructs like meaning and spirituality in addition to the more standard constructs of positive emotion and life satisfaction A premise of the volume is that being happy consists of more than having the right things happen to us it also depends on how we interpret those events as well as what we are trying to achieve Such considerations suggest that cognitive emotional factors should play a fairly pronounced role in how happy we are The present volume pursues these themes in the context of 25 chapters organized into 5 sections The first section centers on cognitive variables such as attention and executive function in addition to mindfulness The second section considers important sources of positive cognition such as savoring and optimism and the third section focuses on self regulatory contributions to well being Finally social processes are covered in a fourth section and meaning related processes are covered in the fifth What results is a rich and diverse volume centering on the ways in which our minds can help or hinder our aspirations for happiness
