Translation, Travel, Migration Loredana Polezzi, 2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory both practices seen as metaphors of mobility and flux linked to globalized post modern society Travel is a multiple activity encompassing temporary and voluntary displacement repeated movement exile economic migration diaspora Places of origin are often plural and unstable in spite of the enduring appeal of traditional labels such as mother country or patrie The multiple interfaces between translation travel and migration are the

focus of all contributions in this special issue Starting from different points of view and using a variety of methodologies the authors raise fundamental questions about the way in which we perceive the link between language national or ethnic identity and individual voice Topics range from the interaction between travel travel narratives and translation in early English representations of China to the special role played by interpreters in mediating the first contact between a literate and a non literate culture from the multiple functions and audiences addressed by contemporary Romani literature and its translation to the political as well a cultural implications of translating popular music across the Bosphorus A number of the articles focus on detailed textual analysis covering the intersection between exile self translation and translingualism in the work of Manuel Puig the uses and limitations of translation in the works of migrant authors or the impact on figurations of Europe of experimental work embracing polylingualism Collectively these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are and what roles they play in our society

Legal Issues in Global Contexts Kirk St. Amant,Martine Rife,2016-12-05 Today it has been said the world is flat as online media allow information to move easily from point to point across the earth International legal differences however are increasingly affecting the ease with which data and ideas can be shared across nations Copyright law for example affects the international flow of materials by stipulating who has the right to replicate or to share certain kinds of content Similarly perspectives on privacy rights can differ from nation to nation and affect how personal information is shared globally Moreover national laws can affect the exchange of ideas by stipulating the language in which information must be presented in different geopolitical regions Today s technical communicators need to understand how legal factors can affect communication practices if they wish to work effectively in global contexts This collection provides an overview of different legal aspects that technical communicators might encounter when creating materials or sharing information in international environments Through addressing topics ranging from privacy rights and information exchange to the legalities of business practices in virtual worlds and perspectives on authorship and ownership the contributors to this volume examine a variety of communication based legal issues that can cause problems or miscommunication in international interactions Reviewing such topics from different perspectives the authors collectively provide ideas that could serve as a foundation for creating best practices on or for engaging in future research in the area of legal issues in international settings *Multilingual* ,2007
