Translation Of Childrens Literature Topics In Translation:

The Translation of Children's Literature Gillian Lathey, 2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails. Students of this subject have had problems in finding a book that attempted an up to date and comprehensive review of the field. Gillian Lathey's Reader does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies, University of Warwick. Translating Children's Literature Gillian Lathey, 2015-07-24 Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering Narrative style and the challenges of translating the child's voice, The translation of cultural markers for young readers, Translation of the modern picture book, Dialogue, dialect and street language in modern children's literature, Read aloud qualities, wordplay, onomatopoeia and the translation of children's poetry, Retranslation, retelling and reworking, The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature. *Children's Literature in Translation* Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J. K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of childhood images, the revelation of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany, questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books, strategies for

translating cultural markers such as juvenile expressions functional shifts caused by different translation strategies dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*

Leonardi,2020-07-06 This book explores the topic of ideological manipulation in the translation of children s literature by addressing several crucial questions including how target language norms and conventions affect the quality of a translation how translations are selected on the basis of what is culturally accepted who is involved in the selection of what should be translated for children in the target culture and how this process takes place The author presents different ways of looking at the translation of children s books focusing particularly on the practices of intralingual and interlingual translations as a form of rewriting across a selection of European languages This book will be of interest to Translation Studies and children s literature scholars as well as those with a wider interest in the impact of ideology on culture

Cultural Encounters in Translated Children's Literature Helen Frank,2014-04-08

Cultural Encounters in Translated Children s Literature offers a detailed and innovative model of analysis for examining the complexities of translating children s literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children s literature with the translation of Australian children s fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children s books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify

Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature Children's Literature Pat Pinsent, 2016-04-08 This invaluable Guide surveys the key critical works and debates in the vibrant field of children s literature since its inception Leading expert Pat Pinsent combines a chronological overview of developments in the genre with analysis of key theorists and theories and subject specific methodologies
