Teaching Travel And Tourism 14+ Huggett, Cliff, Pownall, Deborah, 2010-10-01 Teaching Travel and Tourism 14 has been written in response to a perceived need in initial teacher training to address the pedagogy of vocational programmes in the field as a vocational subject. It therefore focuses on theoretical approaches to teaching learning and assessment and how they can inform the way in which we plan and deliver programmes of Travel and Tourism studies. It examines how we teach programmes related to preparation for working in the industry programmes such as the National Diplomas specific professional qualifications and of course the new 14-19 Diplomas. It is intended to inform and stimulate to further study all likely to be involved in the development and delivery of such programmes. This could include those engaged in initial teacher training whether experienced practitioners or post graduate students subject mentors now required to support new teachers experienced teachers unfamiliar with the subject who may be required to teach on these programmes and also administrators needing to familiarise themselves with the nature content and delivery of the subject as an innovation to the curriculum. Therefore although initially it examines the nature of the industry and raises discussion of issues pertinent to the delivery of related vocational programmes it is essentially a useful resource book with a wealth of information about the exciting curriculum opportunities that the subject presents. Through interactive exercises case studies and exemplar resources it provides the reader with a foundation of usable activities to develop a variety of teaching and learning strategies which will enhance their delivery of the Travel and Tourism curriculum.

Teaching Critically about Lewis and Clark Alison Schmitke, Leilani Sabzalian, Jeff Edmundson, 2020 The Lewis and Clark Corps of Discovery is often presented as an exciting adventure story of discovery friendship patriotism. However when viewed through a non colonial lens this same period in U S History can be understood quite differently. In *BEYOND ADVENTURE* the authors provide a conceptual framework ready to use lesson plans and teaching resources to address oversimplified versions of the Lewis and Clark expedition.

The Elephant in the Classroom Stumpf, 2014-11-04 So the other day I was talking with Ashley toward the end of class and mentioned she'd been absent a lot so I asked if she had been ill. She said No. We've been getting the place ready for my parents. They're coming home. Really I was a bit puzzled. Yeah she said I pick dad up from prison on Monday and mom on Wednesday. When a kid walks into class he or she is carrying baggage. This is the reality. The most important thing for teachers to teach kids is that learning is fun and that they can do it. If they don't learn this it doesn't matter what else is taught. Someone Else's Problem just walked in your classroom. With apologies to Douglas Adams's *The Hitchhiker's Guide to the Galaxy* They don't cover this kind of thing in education classes in

college and they also don't tell you about students coming to school hungry for food or love To assume that your job as a teacher is just to teach subject matter is like a blind man describing an elephant The Elephant in the Classroom was walking the halls of Columbine
