Phor Sodh Dhammakāyārām, Lord Buddha's teachings have been preserved for centuries through oral transmission by means of recitation. Since the Dhamma were not recorded in writing, disciples assembled regularly to recite together in concord. Variations in individual memories were not allowed to obscure the Buddha's words. While chanting, devotees contemplate the Dhamma with peaceful minds free from other tasks. Chanting also requires deep concentration. It is part of daily Dhamma practice. Thus monks in every monastery routinely assemble to chant the words of the Buddha together in group recitation. I am extremely delighted to have this Traditional Pali Chants in English Book. It will permit international Dhamma devotees to take part in the recitation and to contemplate and help preserve the teachings of the Buddha. Because of the English translations, the book conveys the meaning as well as the sound of Lord Buddha's teachings. I would like to profoundly thank everyone who participated in the gargantuan mission to publish this book for their many varied contributions. I enthusiastically congratulate them all on this extremely successful achievement. They include Phra Yossaphat Khantidhammo, Watcharapol Daengsubha, and Saranviphat Svetanan, to mention only a few. May Lord Buddha bless them all for their highly meritorious efforts. <http://dhammacenter.org> <https://drive.google.com/open?id>

Buddhist Learning and Textual Practice in Eighteenth-Century Lankan Monastic Culture Anne M.

Blackburn, 2020-07-21. Anne Blackburn explores the emergence of a predominant Buddhist monastic culture in eighteenth-century Sri Lanka while asking larger questions about the place of monasticism and education in the creation of religious and national traditions. Her historical analysis of the Siyam Nikaya, a monastic order responsible for innovations in Buddhist learning, challenges the conventional view that a stable and monolithic Buddhism existed in South and Southeast Asia prior to

the advent of British colonialism in the nineteenth century The rise of the Siyam Nikaya and the social reorganization that accompanied it offer important evidence of dynamic local traditions Blackburn supports this view with fresh readings of Buddhist texts and their links to social life beyond the monastery Comparing eighteenth century Sri Lankan Buddhist monastic education to medieval Christian and other contexts the author examines such issues as bilingual commentarial practice the relationship between clerical and popular religious cultures the place of preaching in the constitution of textual communities and the importance of public displays of learning to social prestige Blackburn draws upon indigenous historical narratives which she reads as rhetorical texts important to monastic politics and to the naturalization of particular attitudes toward kingship and monasticism Moreover she questions both conventional views on traditional Theravadin Buddhism and the Buddhist modernism Protestant Buddhism said to characterize nineteenth century Sri Lanka This book provides not only a pioneering critique of post Orientalist scholarship on South Asia but also a resolution to the historiographic impasse created by post Orientalist readings of South Asian history
