Behind Closed Doors Johanna Rothman, Esther Derby, 2005-09-19 Great management is difficult to see as it occurs. It's possible to see the results of great management, but it's not easy to see how managers achieve those results. Great management happens in one-on-one meetings and with other managers all in private. It's hard to learn management by example when you can't see it. You can learn to be a better manager even a great manager with this guide. You'll follow along as Sam, a manager just brought on board, learns the ropes and deals with his new team over the course of his first eight weeks on the job. From scheduling and managing resources to helping team members grow and prosper, you'll be there as Sam makes it happen. You'll find powerful tips covering Delegating effectively, Using feedback and goal setting, Developing influence, Handling one-on-one meetings, Coaching and mentoring, Deciding what work to do and what not to do, and more. Full of tips and practical advice on the most important aspects of management, this is one of those books that can make a lasting and immediate impact on your career.

Transformational Strategy Bill Staples, 2013-01-31 Tried and tested practical wisdom about participatory long range and strategic planning. In rapidly changing complex landscapes, organization leaders need concrete plans, not simplistic advice. Reactive plans often entrench the problem. But when many minds focus together, a new array of ideas and options can generate profound insight, creative strategy, and high resolve in the whole group. What can leaders, consultants, and facilitators do to ensure this happens? As a master practitioner of ICAs' Technology of Participation™ (ToPTM), Bill Staples fully illustrates the breadth and depth of the transformation that comes from fully engaging people in the decisions that affect their work and lives. This book pulls back the veil on today's most powerful facilitation and reveals transformational philosophy, methods, and tools used around the world. ToP practitioners will especially benefit from the case studies and detailed procedures that launch organizational transformation. There are few organizations that have contributed so much to the improvement of group problem solving and decision making as the Institute of Cultural Affairs. Over the past 25 years, its Technology of Participation has become known the world over and is applied in every sector of society. This book provides a thorough introduction to ToP, including its background, purpose, methods, and applications. Bill Staples integrates and presents this information in a way that makes it accessible to anyone concerned with engaging people in effective problem solving and decision making. Sandy Schuman
