INTERVIEW WITH THE AUTHOR When did you start writing My first effort started with Socket Greeny It was a story I started for my son because he hated to read It didn't work but this character Socket took root It was the first time I felt possessed by a character with a story to tell It took me 5 years and countless rewrites to get it right I waited by the mailbox after that but the giant paycheck never arrived If you can't make money why write fiction I didn't say you can't make money There are a lot of people out there with a good book whether it's romance dystopia science fiction or young adult I'm just a minnow in a crowded pond It took a good deal of networking and research to realize just how hard it is Thanks to epublishing I can get the book out That frees me up to write what inspires me Writing is the true love There's something deeply satisfying to have characters come to life in your mind and watch their stories unfold It's a deeper experience than reading someone else's story What do you want readers to get from your stories I've always been inspired by fearless writing that asked poignant questions questions like who am I and what is the universe Things that made me look at life slightly different books that exposed a layer of reality Writing in the young adult genre appealed to me most because that's the age I really craved those questions and answers I want readers to see the world slightly different What is your favorite character I love a bad bad antagonist that you can't entirely hate there's some smidgeon of redemption you feel inside this demented sorry character Heath Ledger's Joker A despicable character that didn't deserve an ounce of pity but for some reason I didn't hate him as much as I should have It's that character I find most intriguing In The Socket Greeny Saga the character Pike was my Joker

Reviewer I absolutely love this series Kara McCabe Reviewer Tony is an excellent story teller jlllake Reviewer I want MORE J Bunch Reviewer Awesomely engaging Janice Everett Reviewer **Flury: Journey of a Snowman** Tony Bertauski,2014-11-15 Life hasn't been kind to Oliver Toye As if juvenile diabetes isn't enough he's forced to live with his tyrannical grandmother in a snow bound house He spends his days doing chores and the nights listening to the forest rumble But when he discovers the first leather bound journal the family secrets begin to surface The mystery of his great grandfather's voyage to the North Pole is revealed That's when the snowman appears Magical and mysterious the snowman will save Oliver more than once But when the time comes for Oliver to discover the truth will he have the courage When Flury needs him will he have the strength When believing isn't enough will he save the snowman from melting away Because sometimes even magic needs a little help INTERVIEW WITH AUTHOR Where did you come up with the idea of writing science fiction for holiday characters My nephew mentioned the secret Santa ninja elves that visit his school during Christmas and this spawned the idea of writing a semi serious sci fi version of Santa How the ideas flesh out is a long process I started keep track of how the story arc of my latest novel evolves just to remember where it began It's all over the place I love the challenge of bringing a story to light letting the characters get in my head and telling me where to go Flury Journey of a Snowman is the third book in the Claus series It was originally Frosty the Snowman but Frosty is copyrighted It didn't matter really The character was better suited to be something other than Frosty Flury is a bit more serious Are you getting any backlash for rewriting these Christmas legends Not at all In fact a lot of readers have connected to all the unanswered questions surround them especially Santa Claus How does he go around the world in a night Why is he fat Why does he live on the North Pole How do reindeer fly How does he carry all those presents All of them answered with the magic wand of science fiction I mean the science wand of science fiction The stories still have the fantasy element of course Some leaps of imagination And also the romance angle Why Because all stories have love What is your favorite character from the books that you have written Socket Greeny is one of my favorites That science fiction trilogy was my first story I wrote it in first person and really connected with him However Jack Frost is in Claus Legend of the Fat Man and Jack The Tale of Frost and has become my all time fave He's childish irreverent and dangerous but at the same time lovable What order should readers purchase the Claus books Claus Legend of the Fat Man is the best start After that any order works They all can be read as standalone novels **The Annihilation of Foreverland** Tony Bertauski,2019-08-30 When kids awake on an island they're told there was an accident Before they can go home they will visit Foreverland an alternate reality that will heal their minds Reed dreams of a girl that tells him to resist Foreverland He doesn't remember her name but knows he once loved her He'll have to endure great suffering and trust his dream And trust he's not insane Danny Boy the new arrival meets Reed's dream girl inside Foreverland She's stuck in the fantasy land that no kid can resist Where every heart's desire is satisfied Why should anyone care how Foreverland works *Clay* Tony Bertauski, We map the universe with five senses Interpret reality

INTERVIEW WITH THE AUTHOR WHAT GENRE DO YOU PREFER Science fiction dystopia technothriller and to some extent young adult I do have a series of novellas in the vampire genre Yeah I know Doesn t fit That character Drayton came out of nowhere when I was at a community theatre production of Dracula I figured that an immortal vampire would more likely become compassionate and wise as he grew older The technothriller Halfskin is similar to vampires in that technology promises immortality and complete control of our bodies But then what WHY A SYNTHETIC STEM CELL Organic life is too nilly willy We re limited by our DNA Give it to the scientists to perfect this vehicle that carries us around because it is a vehicle If we no longer have organic bodies if every one of our cells is replaced by something manmade all the way down to the neurons and synapses then what are we What if our world is just a computerized environment ala The Matrix Would we know the difference Look we re printing organs today I m not but someone is Some genius has figured out how to push play and heart or liver or kidney comes down the chute Halfskin takes the idea into the distant future and explores whether this leads to more happiness or just more of the same Because more money more problems DO YOU HAVE ANOTHER JOB BESIDES AUTHOR Day job I m a college horticulture teacher Writing is a passion No plans to change it WHAT IS YOUR MOTTO Breathe WHAT TALENT WOULD YOU MOST LIKE TO HAVE Omnipresent supergalactic oneness IF WE HAD A CUSTOM THAT ALLOWED US TO EAT OUR CHILDREN WHAT KIND OF SAUCE WOULD YOU USE Ketchup the miracle condiment ARE OUR ELECTRONIC DEVICES STEALING OUR SOUL AND IF SO DO YOU MAKE OFFERINGS TO YOUR TOASTER I offer white bread and the toaster gives back crunchy brown bread Never doubt a true miracle Halfskin Boxed Tony Bertauski,2015-09-18 For fans of Bladerunner and Brave New World comes a new twist Perfection has arrived Synthetic stem cells mean no more organ failure no more pharmaceuticals No cancer The human race is stronger smarter and prettier Is it better Cali Richards is a nanobiometric engineer who has been her younger brother s guardian since their parents died She s lost too many people in her life to lose another When the government declares the Halfskin Laws will shut down anyone with too many synthetics she decides to hide him But even brilliance can succumb to the pressure of suffering

And synthetics can't cure insanity Follow their twisting slippery grip on reality as they strive to find happiness in a world that has everything it could possibly want

Bricks Tony Bertauski, 2015-09-14

Fabbers slabbers and fakies were dehumanizing slurs for fabricated humans

Bricks however was the People's favorite

The Sentience Laws were created to protect the rights of Bricks but the laws didn't last long

Banished to the remote isolation of the Settlement

Paul and Raine are sentenced to live the rest of their lives in the wilderness

Escape and freedom will depend on Marcus Anderson the man responsible for all the suffering that's been endured since the invention of biomes the synthetic stem cells used to fabricate halfskins and Bricks

Marcus needs them in order to find the powers that be the man he believes is truly responsible for the world's suffering

Their journey will take them to a tiny island in the South Atlantic where the truth is much closer than they realize

That's where they will discover the powers that be

And so much more

INTERVIEW WITH THE AUTHOR

WHAT GENRE DO YOU PREFER

Science fiction dystopia technothriller and to some extent young adult

I do have a series of novellas in the vampire genre

Yeah I know Doesn't fit That character

Drayton came out of nowhere when I was at a community theatre production of Dracula

I figured that an immortal vampire would more likely become compassionate and wise as he grew older

The technothriller Halfskin is similar to vampires in that technology promises immortality and complete control of our bodies

But then what

WHY A SYNTHETIC STEM CELL

Organic life is too nilly willy

We're limited by our DNA

Give it to the scientists to perfect this vehicle that carries us around because it is a vehicle

If we no longer have organic bodies if every one of our cells is replaced by something manmade all the way down to the neurons and synapses then what are we

What if our world is just a computerized environment ala The Matrix

Would we know the difference

Look we're printing organs today

I'm not but someone is

Some genius has figured out how to push play and heart or liver or kidney comes down the chute

Halfskin takes the idea into the distant future and explores whether this leads to more happiness or just more of the same

Because more money more problems
